

GoNetZero™ is a **global decarbonisation solutions platform, backed by Singapore Stock Exchange-listed Sembcorp Industries**, headquartered in Singapore.

At **GoNetZero**,

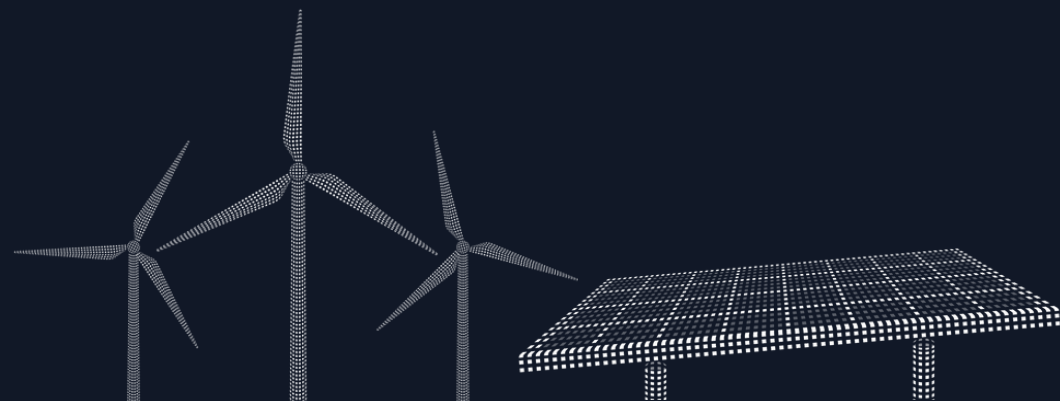

We believe in a holistic approach to unlock critical opportunities for our customers to transition to a low-carbon economy.

Our solutions are designed to solve for the demand and supply sides of decarbonisation, as well as energy asset management.

We help our customers acquire Renewable Energy Certificates (RECs) and carbon credits. We partner across organisations through various stages of their net zero journeys.

Innovation is the core of what we do to develop decarbonisation strategies to serve our customers better.

To understand how we can help your net zero goals, reach out to us @ [contact@gonetzzero.ai](mailto:contact@gonetzzero.ai)

## ADVISE

We provide decarbonisation advisory for customers to match suitable products at varying stages of net zero readiness.

Our decarbonisation product portfolio offers a range of environmental attributes (EAs). RECs and carbon credits are available on our marketplace, which enables our customers access to view and purchase from high quality projects.

## ABATE & OFFSET

Ability to secure high-quality, verified RECs and carbon credits by our renewable energy portfolio and reputable partners

such as project developers and asset owners to help our customers stay effective on their sustainability journey.

## VERIFY & MATCH

By using blockchain technology, GoNetZero™ is able to track renewable energy from source to consumption.

This enhances our customer experience of transparency and traceability of renewable energy usage and facilitates 24/7 clean hourly matching.

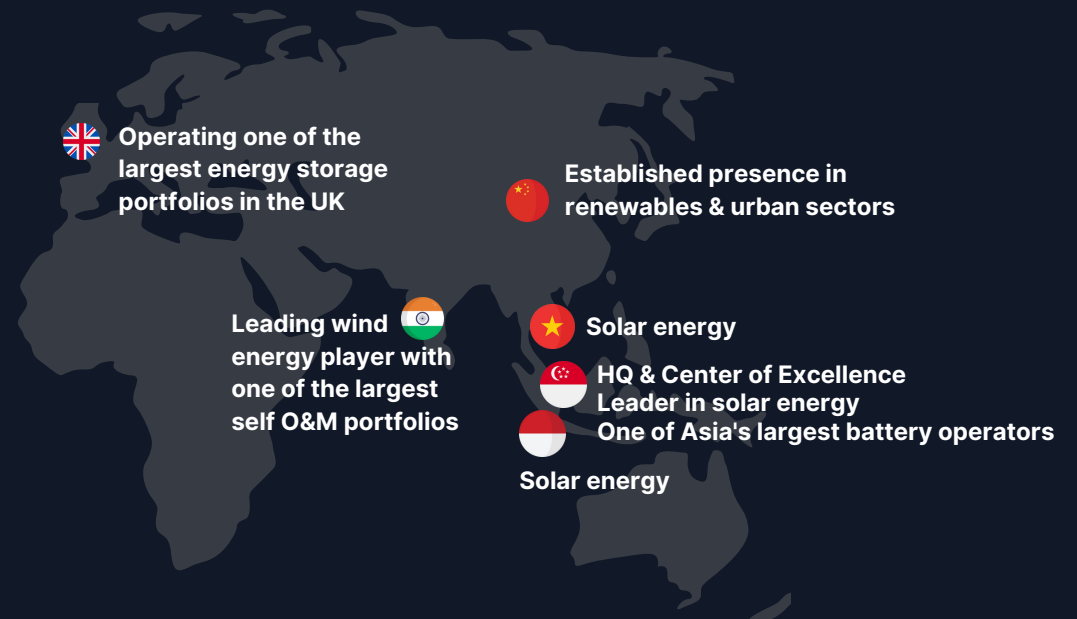

## OPTIMISE

NetZeroOS is our proprietary smart energy asset management system that covers a range of assets, from wind, solar, battery, water, hydrogen to thermal.

With this dashboard, our customers will be served a better experience to scale, deploy and optimise the needs for your business.

Here are some of our global key projects

If you would like to know more about our projects, reach out to us @ [contact@gonetzzero.ai](mailto:contact@gonetzzero.ai)

## GoNetZero™ customers

We serve a diverse range of customers ranging from government agencies, MNCs, RE100 members, data centres, financial institutions and more.
