Directors' Report

Year ended December 31, 2005

We are pleased to submit this Annual Report to the members of the Company, together with the audited financial statements for the financial year ended December 31, 2005.

Directors

The directors in office at the date of this report are as follows:

Peter Seah Lim Huat

Tang Kin Fei (Appointed on May 1, 2005)

K Shanmugam

Goh Geok Ling

Richard Hale, OBE

Yong Ying-I

Dr Vichit Suraphongchai

Colin Au Fook Yew

Evert Henkes

Lee Suet Fern (Appointed on July 1, 2005)

Principal Activities

The principal activities of the Company are those of an investment holding company, as well as the corporate headquarters, which gives strategic direction and provides management services to its subsidiaries. The principal activities of key subsidiaries are as follows:

i. Utilities

Its principal activities are in power, gas, centralised utilities and specialised chemical feedstock industries. It is the provider of industrial site services to clusters of chemical multinational corporations on Jurong Island in Singapore and Wilton International in the United Kingdom. It also invests in, manages and operates cogeneration plants in Singapore and in the region. It is also involved in engineering, construction and fabrication of offshore platforms, modules and floating production systems for oil and gas companies worldwide.

ii. Marine Engineering

This business focuses principally on repair, building and conversion of ships, rig construction and offshore engineering.

iii. Logistics

Its principal activities are in supply chain management and offshore logistics. It provides one-stop integrated logistics management services including automated warehouse and inventory management. The business operates offshore supply bases in Singapore, China, Indonesia, Thailand, Iran and Azerbaijan.

iv. Environmental Engineering

The business provides integrated waste management services in the Asia Pacific region. Its activities include a complete and integrated suite of solutions for waste treatment and environmental project management, catering to the municipal, industrial, commercial and healthcare sectors.

v. Engineering and Construction

It is an engineering and construction service provider with principal activities ranging from turnkey construction, design consultancy, infrastructure development and project management. It is also involved in petrochemical, chemical and industrial process engineering and manufacturing of precast components.

There have been no significant changes in the principal activities of the Company and the Group during the financial year.

Directors' Report

Year ended December 31, 2005

Directors' Interests

According to the register kept by the Company for the purposes of Section 164 of the Companies Act, Chapter 50 (the "Act"), particulars of interests of directors who held office at the end of the financial year in shares, debentures, warrants and share options in the Company and in related corporations are as follows:

Telecommunications Ltd	Executive Performance Share Plan:					
	- award of performance shares granted in 2005 (Note A, (3))	-	Up to 1,643,701	Up to 1,643,701	-	-
Dexia Trust Services Singapore Limited	Ordinary shares of \$0.15 each (Note B)	-	9,964,475	13,747,302	-	-

Note A:

The actual number delivered will depend on the achievement of set targets as determined by the Compensation Committee of Singapore Telecommunications Ltd at the end of the respective performance period from (1) April 1, 2003 to March 31, 2006, (2) April 1, 2004 to March 31, 2007 and (3) April 1, 2005 to March 31, 2008.

The vesting is conditional on performance targets set based on medium-term corporate objectives such as Return on Invested Capital and relative total shareholders' return vis-à-vis the MSCI Asia-Pacific Telecom Index. At the end of the performance period, the final number of Performance Shares Options awarded will depend on the level of achievement of those targets. If the minimum level of targets is not met, no Performance Shares Options will vest. If the targets are exceeded by more than 100%, the maximum of 100% of Performance Share Options will vest.

Note B:

Dexia is the trustee of a trust established to purchase shares for the benefit of eligible SingTel employees under the SingTel Executive Performance Share Plan and the SingTel Performance Share Plan. The SingTel shares purchased by Dexia pursuant to the trust are held for the benefit of all such eligible employees and vest in such employees subject to meeting performance hurdles detailed in the respective award letters.

Except as disclosed in this report, no director who held office at the end of the financial year had interests in shares, debentures, warrants or share options of the Company, or of related corporations, either at the beginning of the financial year, or date of appointment, if later, or at the end of the financial year.

There were no changes in the above-mentioned directors' interests in the Company between the end of the financial year and January 21, 2006.

Except as disclosed under the "Share-based Incentive Plans" section of this report, neither at the end of, nor at any time during the financial year, was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

Except as disclosed in note 29 (b) and 35 to the financial statements, since the end of the last financial year, no director has received or become entitled to receive a benefit by reason of a contract made by the Company or a related corporation with the director, or with a firm of which he is a member or with a company in which he has a substantial financial interest.

Directors' Report

Year ended December 31, 2005

Share-based Incentive Plans

The Company's Share Option Plan, Performance Share Plan and Restricted Stock Plan (collectively, the "Share Plans") were approved and adopted by the shareholders at an Extraordinary General Meeting of the Company held on June 3, 2000.

The Executive Resource & Compensation Committee (the "Committee") of the Company has been designated as the Committee responsible for the administration of the Share Plans. The Committee comprises the following members, all of whom are directors:

Peter Seah Lim Huat (Chairman)
Goh Geok Ling
K Shanmugam

The Share Option Plan is the incentive scheme for directors and employees of the Company and its subsidiaries (the "Group") whereas the Performance Share Plan and Restricted Stock Plan are aimed primarily at key executives of the Group.

The Share Option Plan provides the Company with means whereby non-executive directors and employees of the Group, and certain categories of persons who can make significant contributions through their close working relationship with the Group, such as non-executive directors and employees of the Company's Parent Company and non-executive directors and employees of the Company's associated company, are given an opportunity to participate in the equity of the Company.

Under the rules of the Share Option Plan, participants who ceased to be employed by the Group, Parent Company or the associated company by reason of ill health, injury or disability, redundancy, retirement at or after the legal retirement age, retirement before the legal retirement age, death, etc, or any other event approved by the Committee, may be allowed by the Committee to retain their unexercised Options. The Committee may determine the number of Shares comprised in that Option which may be exercised and the period during which such Option shall be exercisable, being a period not later than the expiry of the Exercise Period in respect of that Option. Such Option may be exercised at any time notwithstanding that the date of exercise of such Option falls on a date prior to the first day of the Exercise Period in respect of such Option.

The Company designates Temasek Holdings (Private) Limited as the Parent Company.

The Performance Share Plan and Restricted Stock Plan award fully-paid shares to participants to achieve pre-determined targets that create and enhance economic values for shareholders of the Company, and/or to accomplish time-based service conditions. Awards will be released to participants as fully-paid shares, or their equivalent cash value or combinations thereof, free-of-charge provided that the conditions of the awards are achieved and subject to approval by the Committee.

Awards granted under the Performance Share Plan are released at the end of the performance period only when the pre-determined targets have been achieved. Awards granted under the Restricted Stock Plan vest only after the satisfactory completion of time-based service conditions, or where the award is performance related, after a further period of service beyond the performance target completion date. No minimum vesting period is prescribed under the Restricted Stock Plan and the length of the vesting period in respect of each award will be determined on a case-by-case basis. Performance-based restricted awards differ from awards granted under the Performance Share Plan in that an extended vesting period is imposed beyond the performance target completion date.

The Share Plans are intended to attract, retain and incentivise participants to higher standards of performance and encourage greater dedication and loyalty by enabling the Company to give recognition to past contributions and services; as well as motivating participants to contribute to the long-term prosperity of the Group.

Other information regarding the Share Option Plan are as follows:

- i. The exercise price of the options can be set at a discount to the market price not exceeding 20% of the market price in respect of options granted at the time of grant.
- ii. The options can be exercised 12 months after the grant for market price options and 24 months for discounted options. Further vesting period for the exercise of the options may be set. The Group imposed a further vesting over 4 years for managers and above for retention purposes.
- iii. The options granted expire after 5 years for non-executive directors, associated company's employees and 10 years for the employees of Group and Parent Company.

Parent Group ⁵	–	378,500	(56,500)	(194,000)	128,000
Former Directors of the Company					
	–	7,347,078	(1,977,078)	(722,500)	4,647,500
Total	17,921,500	156,701,972	(64,843,348)	(42,111,852)	49,746,772

Notes:

¹ Mr Tang Kin Fei was granted 600,000 share options since his appointment as director of the Company on May 1, 2005.

² Options lapsed due to replacement of 1999 options and expiry of earlier options.

³ Mr Lua Cheng Eng has vacated his office of Director on the Company's Board with effect from February 14, 2006. The outstanding options became immediately vested and exercisable within 18 months from that date.

⁴ Options not accepted due to civil service regulation.

⁵ Parent Group refers to former employees of Singapore Technologies Pte Ltd.

Since the commencement of the Share Option Plan, no options have been granted to the controlling shareholders of the Company or their associates. No participant under the Share Option Plan has been granted 5% or more of the total options available. No options have been offered at a discount.

The options granted by the Company do not entitle the holders of the options, by virtue of such holdings, to any right to participate in any share issue of any company.

Except as disclosed above, there were no unissued shares of the Company or its subsidiaries under options granted by the Company or its subsidiaries as at the end of the financial year.

Directors' Report

Year ended December 31, 2005

Performance Share Plan

Under the Performance Share Plan, the awards granted conditional on performance targets are set based on medium-term corporate objectives at the start of each rolling three-year performance qualifying period. A specific number of performance shares shall be awarded at the end of the three-year performance cycle depending on the extent of the achievement of the performance conditions established at the onset.

In 2005, the Committee, with advice and assistance from an independent compensation consultant, redesigned its approach to the share-based incentive awards, with particular focus on establishing new standards for share-based incentive grants. The redesigned share-based incentive grants took into account evolving practices at other major public-listed companies, as well as the Company's objective of further enhancing linkages between employee performance and long-term shareholder value creation objectives. The redesign was completed and implemented in 2005.

For awards granted before 2005, recipients who do not achieve at least 80% of the targets set at the end of the performance period will not be granted the performance shares. If the achievement of the targets exceeds 100%, more performance shares than the original award could be delivered up to a maximum of 200% of the original award.

In the 2005 performance share award, the performance criteria was changed and performance levels re-calibrated based on the new measures, namely Wealth Added and Total Shareholders' Return. For each performance measure, three distinct performance levels are set. A minimum of threshold performance must be achieved to trigger an Achievement Factor, which in turn determines the number of shares to be finally awarded. Based on the new criteria, performance shares to be delivered for awards granted in 2005 will range between 0% to 150% of the original award.

Participants are also required to hold a minimum percentage of the shares released to them under the Performance Share Plan to maintain a beneficial ownership stake in the Group, for the duration of their employment or tenure with the Group. A maximum cap is set based on a multiple of the individual participant's Annual Base Salary. Any excess can be sold off, but in the event of a shortfall, they have a two calendar year period to meet the minimum percentage requirement.

During the year, a total of 157,500 performance shares were released by the Committee to the participants for the performance period 2002 to 2004. Of the 157,500 performance shares released, 84,000 were released to the estate of Mr Wong Kok Siew (deceased on February 16, 2005), a former key executive and executive director of the Board, via the release of cash in-lieu of share awards at \$2.00 per share on April 12, 2005, as approved by the Committee.

During the year, the Committee also approved the release of 113,400 performance shares for the performance period 2003 to 2005 and 39,200 performance shares for the performance period 2004 to 2006 to the estate of Mr Wong Kok Siew via the release of cash in-lieu of share awards at \$2.00 per share on April 12, 2005. The number of performance shares released to the estate of Mr Wong Kok Siew was pro-rated for the completed performance period.

Directors' Report

Year ended December 31, 2005

Performance Share Plan (continued)

The details of performance shares of the Company awarded during the year since commencement of the Performance Share Plan (aggregate) were as follows:

	Conditional shares awarded during the year	Aggregate conditional shares awarded	Aggregate conditional shares released	Aggregate conditional shares lapsed	Aggregate conditional shares outstanding
Director of the Company					
Tang Kin Fei (appointed on May 1, 2005)	400,000	1,040,000	(56,000) [@]	(284,000)	700,000
Former Directors of the Company	–	1,780,000	(341,600)	(1,438,400)	–
Key Executives of the Group	470,000	2,230,000	(133,000)	(1,097,000)	1,000,000
	870,000	5,050,000	(530,600)	(2,819,400)	1,700,000

@ For performance period prior to Mr Tang Kin Fei's appointment as Group President & CEO of the Group.

The total number of performance shares in awards granted conditionally and representing 100% of targets achieved, but not released as at end 2005, was 1,700,000. Based on the multiplying factor, the actual release of the awards could range from zero to a maximum of 2,965,000 performance shares.

During the current financial year, the Group has charged \$1,271,000 (2004: \$1,772,000) to the profit and loss account in respect of performance shares awarded prior to January 1, 2005 based on the market values of the shares at reporting date. For performance shares awarded from January 1, 2005 the Group has charged \$776,000 to the profit and loss account based on fair value of performance shares at grant date.

Restricted Stock Plan

During the year, an award of 400,000 restricted stocks was vested to Mr Wong Kok Siew (deceased on February 16, 2005), a former key executive and executive director of the Board. This was issued to his estate during the year via the release of cash in-lieu of share awards at \$1.90 per share as approved by the Committee. A total 1,000,000 restricted stocks was vested and issued to him since 2002.

In 2005, no restricted stock has been awarded under the Restricted Stock Plan.

Maximum Number Of Shares Issuable

The maximum number of performance shares and restricted stocks which could be delivered, when aggregated with the number of new shares issued and issuable in respect of all options granted, is within the 15% limit of the share capital of the Company on the day preceding the relevant date of the grant.

Directors' Report

Year ended December 31, 2005

Audit Committee

The members of the Audit Committee during the year and at the date of this report are:

Richard Hale, OBE (Chairman, appointed on February 14, 2006)
Lua Cheng Eng (Chairman, vacated office on February 14, 2006)
K Shanmugam
Lee Suet Fern (Appointed on July 1, 2005)

The Audit Committee has held 5 meetings during the financial year. In performing its functions, the Audit Committee met with the Company's external and internal auditors to discuss the scope of their work, the results of their examination and evaluation of the Company's internal accounting control system.

The Audit Committee performed the functions specified in Section 201B of the Companies Act, the Listing Manual of the Singapore Exchange, and the Code of Corporate Governance.

The Audit Committee also reviewed the following:

- assistance provided by the Company's officers to the external and internal auditors;
- financial statements of the Group and the Company prior to their submission to the directors of the Company for adoption; and
- interested person transactions (as defined in Chapter 9 of the Listing Manual of the Singapore Exchange).

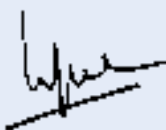

The Audit Committee has full access to management and is given the resources required for it to discharge its functions. It has full authority and the discretion to invite any director or executive officer to attend its meetings. The Audit Committee also recommends the appointment of the external auditors and reviews the level of audit and non-audit fees.

The Audit Committee is satisfied with the independence and objectivity of the external auditors and has recommended to the Board of Directors that the auditors, KPMG, be nominated for re-appointment as auditors at the forthcoming Annual General Meeting of the Company.

Auditors

The auditors, KPMG, have indicated their willingness to accept re-appointment.

Statement by Directors

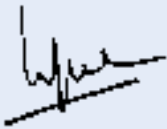

Year ended December 31, 2005

In our opinion:

- a. the financial statements set out on pages 170 to 265 are drawn up so as to give a true and fair view of the state of affairs of the Group and of the Company as at December 31, 2005, and of the results, changes in equity and cash flows of the Group for the year ended on that date; and
- b. at the date of this statement there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these financial statements for issue.

Report of the Auditors to the Members of SembCorp Industries Ltd

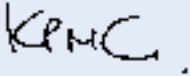

Year ended December 31, 2005

We have audited the accompanying financial statements of SembCorp Industries Ltd for the year ended December 31, 2005 as set out on pages 170 to 265. These financial statements are the responsibility of the Company's directors. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Singapore Standards on Auditing. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the directors, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion:

- a. the consolidated financial statements of the Group and the balance sheet of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the Act) and Singapore Financial Reporting Standards to give a true and fair view of the state of affairs of the Group and of the Company as at December 31, 2005 and of the results, changes in equity and cash flows of the Group for the year ended on that date; and
- b. the accounting and other records required by the Act to be kept by the Company and by those subsidiaries incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

Dividend and interest received	75,749	88,071
Disposal of subsidiaries, net of cash disposed	33,186	(1,341)
Proceeds from disposal of associates and joint ventures	65,275	1,314,967
Proceeds from disposals of investments	121,831	64,492
Proceeds from disposal of property, plant and equipment	35,737	72,356
Acquisition/additional interest in subsidiaries, net of cash acquired	(32,656)	(1,652)
Acquisition/additional interest in associates and joint ventures	(48,733)	(94,834)
Acquisition of other long-term investments	-	(95,568)
Purchase of property, plant and equipment	(365,848)	(226,644)
Long-term receivables & prepayments	20,867	91,916
Payment for intangible assets	(5,261)	(1,098)
Net cash (outflow)/inflow from investing activities	(99,853)	1,210,665
Cash Flows from Financing Activities		
Proceeds from share issue	46,538	5,193
Proceeds from share issue to minority shareholders of subsidiaries	37,665	48,203
Decrease in bank borrowings	(791,202)	(130,675)
Increase/(decrease) in other long-term liabilities	3,836	(8,494)
Capital reduction paid to shareholder of the Company	(214,797)	-
Capital reduction paid to minority shareholders of a subsidiary	(98,882)	-
Dividends paid to shareholders of the Company	(164,701)	(72,903)
Dividends paid to minority shareholders of subsidiaries	(351,441)	(55,047)
Fixed deposits discharged as security with a bank for banking facilities	-	55,716
Interest paid	(58,843)	(75,913)
Net cash outflow from financing activities	(1,591,827)	(233,920)
Net (decrease)/increase in cash and cash equivalents	(864,269)	1,471,262
Cash and cash equivalents at beginning of year	2,099,962	623,188
Effect of exchange rate changes on balances held in foreign currency	(4,412)	5,512
Cash and cash equivalents at end of year	1,231,281	2,099,962

Consolidated Statement of Cash Flows

Year ended December 31, 2005

The attributable net assets of subsidiaries acquired and disposed of during the year are as follows:

	Group	
	2005	2004
	\$'000	\$'000
Acquisitions		
Non-current assets	14,412	9,529
Net current assets	14,347	2,656
Non-current liabilities	(3,047)	(471)
Minority interests	(3,376)	(5,440)
Interest in subsidiaries previously accounted for as associates/other investments	(5,815)	(3,677)
Goodwill	1,320	4,364
Total consideration payable	17,841	6,961
Payment of deferred consideration	6,559	-
Less: Consideration not yet paid	-	(6,559)
Payment for additional interest in subsidiaries	16,980	1,383
Net cash at bank of subsidiaries acquired	(8,724)	(133)
Cash outflow on acquisitions	32,656	1,652
Disposals		
Non-current assets	23,315	23,154
Net current assets/(liabilities)	52	(9,198)
Non-current liabilities	-	(12,857)
Minority interests	-	(967)
	23,367	132
Profit on disposal	9,131	1,452
Realisation of currency translation reserve	-	(1,584)
Goodwill written off on disposal	756	-
Total consideration receivable	33,254	-
Net cash at bank of subsidiaries disposed of	(68)	(1,341)
Cash inflow/(outflow) on disposals	33,186	(1,341)

The accompanying notes form an integral part of these financial statements.

Notes to the Financial Statements

Year ended December 31, 2005

These notes form an integral part of the financial statements.

The financial statements were authorised for issue by the directors on February 28, 2006.

1. Domicile and Activities

SembCorp Industries Ltd (the “Company”) is a company incorporated in the Republic of Singapore and has its registered office at 30 Hill Street #05-04, Singapore 179360.

The principal activities of the Company are those of an investment holding company, as well as those of corporate headquarters, which gives strategic direction and provides management services to its subsidiaries. The principal activities of the subsidiaries are set out in note 43 to the financial statements.

The immediate and ultimate holding company during the financial year was Temasek Holdings (Private) Limited, a company incorporated in the Republic of Singapore.

The consolidated financial statements relate to the Company and its subsidiaries (referred to as the “Group”) and the Group’s interests in associates and joint ventures.

2. Summary of Significant Accounting Policies

a. Basis of Preparation

The financial statements are prepared in accordance with Singapore Financial Reporting Standards (FRS) including related Interpretations promulgated by the Council on Corporate Disclosure and Governance (“CCDG”).

With effect from January 1, 2005, the Group adopted the following new/revised FRSs which are relevant to its operations:

FRS 1 (revised)	Presentation of Financial Statements
FRS 2 (revised)	Inventories
FRS 8 (revised)	Accounting Policies, Changes in Accounting Estimates and Errors
FRS 10 (revised)	Events After the Balance Sheet Date
FRS 16 (revised)	Property, Plant and Equipment
FRS 17 (revised)	Leases
FRS 21 (revised)	The Effects of Changes in Foreign Exchange Rates
FRS 24 (revised)	Related Party Disclosures
FRS 27 (revised)	Consolidated and Separate Financial Statements
FRS 28 (revised)	Investment in Associates
FRS 31 (revised)	Interests in Joint Ventures
FRS 32 (revised)	Financial Instruments: Disclosure and Presentation
FRS 33 (revised)	Earnings Per Share
FRS 39	Financial Instruments: Recognition and Measurement
FRS 102	Share-based Payment
FRS 105	Non-current Assets Held for Sale and Discontinued Operations

In January 2006, CCDG issued FRS 21 Amendment Regulations 2006 (“FRS 21 Amendment 2006”). The amendment is to be applied to financial periods beginning on or after January 1, 2006. The Group has early adopted FRS 21 Amendment 2006 for the current financial year beginning January 1, 2005. In accordance with the transitional provisions, FRS 21 Amendment 2006 was applied retrospectively.

The effects of adopting the new/revised FRSs in 2005 are set out in note 33.

The financial statements are presented in Singapore dollars and rounded to the nearest thousand (“\$’000”), unless otherwise indicated. They are prepared on the historical cost basis except for certain financial assets and financial liabilities, which are stated at fair value.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

a. Basis of Preparation *(continued)*

Non-current assets held for sale are stated at the lower of carrying amount and fair value less costs to sell.

The preparation of financial statements in conformity with FRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

Judgements made by management in the application of FRSs that have a significant effect on the financial statements and in arriving at estimates with a significant risk of material adjustment in the following year are discussed in note 41.

FRS yet to be adopted

The Group has not applied the following standards and interpretations that have been issued as of the balance sheet date but are not yet effective:

- FRS 40 Investment Property
- FRS 106 Exploration for and Evaluation of Mineral Resources
- FRS 19 Amendments: Employee Benefits – Actuarial gains and losses, Group plans and Disclosure
- FRS 39 Amendments: Financial Instruments: Recognition and Measurement – Cash Flow Hedge Accounting of Forecast Intragroup Transactions
- INT FRS 104 Determining whether an arrangement contains a lease
- INT FRS 105 Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds

The initial application of these standards and interpretations are not expected to have any material impact on the Group's results.

The Group has not considered the impact of accounting standards issued after the balance sheet date.

b. Consolidation

i. Subsidiaries

Subsidiaries are those companies controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of a company so as to obtain benefits from its activities.

The existence and effect of potential voting rights that are presently exercisable or presently convertible are considered when assessing whether the Group controls another company.

Investments in subsidiaries are stated in the Company's balance sheet at cost less impairment losses. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

All business combinations are accounted for using the purchase method with effect from January 1, 2004 upon the adoption of FRS 103. Prior to January 1, 2004, business combinations were accounted for either by the pooling of interests method or the purchase method.

Under the purchase method, the cost of an acquisition is measured at the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. The excess of the Group's interest in the fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is credited to the profit and loss account in the period of the acquisition.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

b. Consolidation *(continued)*

i. Subsidiaries *(continued)*

Business combinations that involve entities under common control are excluded from the scope of FRS 103. Such combinations are accounted at historical cost in a manner similar to the pooling of interests method, in the preparation of the consolidated financial statements. Under this method of accounting, the difference between the nominal value of the share capital issued and the nominal value of shares received is taken to the merger deficit/reserve.

The interest of minority shareholders is stated at the minority's proportion of the fair values of the assets and liabilities recognised. Subsequently, any losses applicable to the minority interest in excess of the minority interest are allocated against the interests of the parent.

ii. Associates

Associates are companies in which the Group has significant influence, but not control, over the financial and operating policies.

The existence and effect of potential voting rights that are presently exercisable or presently convertible are considered when assessing whether the Group has significant influence over another company.

In the Group's financial statements, they are accounted for using the equity method of accounting from the day that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds the carrying amount of the associate (including any other unsecured receivables, that in substance, form part of the Group's net investment in the associate), recognition of further losses is discontinued unless the Group has incurred obligations or made payments on its behalf to satisfy obligations of the associate that the Group has guaranteed or otherwise committed on behalf of.

The excess of the Group's interest in the fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is credited to the profit and loss account in the period of the acquisition.

iii. Joint Ventures

Joint ventures are those enterprises whose activities the Group has joint control over, established by contractual agreement.

The existence and effect of potential voting rights that are presently exercisable or presently convertible are considered when assessing whether the Group has joint control over the enterprise.

For incorporated joint ventures, the Group accounts for the joint ventures in the same manner as associates, from the date joint control commences until the day that the joint control ceases.

For unincorporated joint ventures, the proportionate share in the unincorporated joint ventures' individual income, expenses, assets and liabilities are included in financial statements of the Group with items of a similar nature on a line-by-line basis.

The excess of the Group's interest in the fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is credited to the profit and loss account in the period of the acquisition.

iv. Accounting for Associates and Joint Ventures

Investments in associates and joint ventures are stated in the Company's balance sheet at cost less impairment losses.

The results of the associates and joint ventures are included in the Company's profit and loss account to the extent of dividends received and receivable, provided the Company's right to receive the dividend is established before the balance sheet date.

v. Transactions Eliminated on Consolidation

All significant intra-group transactions, balances and unrealised gains are eliminated on consolidation. Unrealised gains resulting from transactions with associates and joint ventures are eliminated to the extent of the Group's interest in the enterprise. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

b. Consolidation *(continued)*

vi. Accounting Policies of Subsidiaries, Associates and Joint Ventures

Where necessary, accounting policies for subsidiaries and material associates and joint ventures have been adjusted on consolidation to be consistent with the policies adopted by the Group.

c. Foreign Currencies

i. Functional and Presentation Currency

Items included in the financial statements of each company in the Group are measured using the currency of the primary economic environment in which the company operates ("the functional currency"). The consolidated financial statements are presented in Singapore dollars, which is the Company's functional and presentation currency.

ii. Foreign Currency Transactions and Balances

Transactions in foreign currencies are translated into the functional currency at foreign exchange rates ruling at the dates of the transactions. At each balance sheet date:

- Foreign currency monetary items are translated into the functional currency using foreign exchange rate ruling at that date.
- Non-monetary assets and liabilities measured at historical cost in foreign currencies are translated into the functional currency using foreign exchange rates at the dates of the transactions.
- Non-monetary assets and liabilities measured at fair value in foreign currencies are translated into the functional currency at foreign exchange rates ruling at the dates the fair value was determined.

Foreign exchange differences arising on the settlement or from translation of monetary items are recognised in the profit and loss account.

Foreign exchange differences arising from non-monetary items are recognised directly in equity when non-monetary items' gain or loss are recognised directly in equity. Conversely when non-monetary items' gain or loss are recognised directly in the profit and loss account, foreign exchange differences arising from these items are recognised directly in the profit and loss account.

iii. Foreign Operations

The results and financial positions of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities are translated at foreign exchange rates ruling at the date of the balance sheet,
- Revenues and expenses are translated at average rates, and
- All resulting foreign exchange differences are taken to the currency translation reserve.

Goodwill (except those relating to acquisition of foreign operations prior to January 1, 2004) and fair value adjustments arising on the acquisition of foreign operations are translated to Singapore dollars for consolidation at the rates of exchange ruling at the balance sheet date. Goodwill arising from the acquisition of foreign operations prior to January 1, 2004 are translated at foreign exchange rates ruling at the dates of the transactions.

On disposal, accumulated currency translation differences are recognised in the consolidated profit and loss account as part of the gain or loss on sale.

iv. Net Investment in a Foreign Operation

Exchange differences arising from monetary items that in substance form part of the company's net investment in a foreign operation are recognised in the company's profit and loss account. Such exchange differences are reclassified to currency translation reserve in the consolidated financial statements. Such exchange differences are released to the consolidated profit and loss account upon disposal of the investment as part of the gain or loss on disposal.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

d. Property, Plant and Equipment

i. Owned Assets

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The cost of self-constructed assets includes the cost of materials, direct labour and an appropriate proportion of production overheads.

Where an item of property, plant and equipment comprises major components having different useful lives, they are accounted for as separate items of property, plant and equipment.

ii. Revaluation Surplus

Any increase on revaluation is credited to revaluation reserve unless it offsets a previous decrease in value recognised in the profit and loss account. A decrease in value is recognised in the profit and loss account where it exceeds the increase previously recognised in the revaluation surplus of the same asset.

iii. Subsequent Expenditure

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the Group. All other subsequent expenditure is recognised as an expense in the period in which it is incurred.

iv. Disposals

Gains or losses arising from the retirement or disposal of property, plant and equipment are determined as the difference between the estimated net disposal proceeds and the carrying amount of the asset and are recognised in the profit and loss account on the date of retirement or disposal.

For property, plant and equipment carried at revalued amounts, any related revaluation surplus is transferred from the revaluation reserve to accumulated profits and is not taken into account in arriving at the gain or loss on disposal.

v. Finance Leased Assets

Finance leases are those leasing agreements that give rights approximating to ownership. Property, plant and equipment acquired by way of such leases is capitalised at the lower of its fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses.

Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to the profit and loss account.

Capitalised leased assets are depreciated over the shorter of the economic useful life of the asset and the lease term.

vi. Provision for Restoration Costs

A provision is recognised for the costs expected to be incurred to dismantle, remove and restore the asset upon expiry of the lease agreement. The estimated costs form part of the cost of the property, plant and equipment and are depreciated over the useful life of the asset.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

d. Property, Plant and Equipment *(continued)*

vii. Depreciation

Depreciation is calculated using the straight-line method to allocate the cost less its residual value so as to write off items of property, plant and equipment over their estimated useful lives. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of an item are depreciated separately. The estimated useful lives are as follows:

Leasehold land and wet berthage	Lease period ranging from 20 to 60 years
Land improvements	Lease period ranging from 20 to 60 years
Buildings	50 years or remaining lease period, if lower
Improvements to premises	1 to 10 years
Quays and dry docks	60 years or remaining lease period, if lower
Floating docks	20 years
Plant and machinery	3 to 30 years
Marine vessels	3 to 25 years
Tools and workshop equipment	3 to 10 years
Motor vehicles	2 to 10 years
Furniture, fittings and office equipment	1 to 10 years

The assets' useful lives and residual values are reviewed, if not insignificant, annually, and adjusted if appropriate.

No depreciation is provided on freehold land and capital work-in-progress.

Fully depreciated assets are retained in the financial statements until they are no longer in use.

e. Intangible Assets

i. Goodwill

Goodwill arising on acquisition represents the excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets. Goodwill is stated at cost less impairment losses. Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill on acquisition of associates and joint ventures is included in investments in associates and joint ventures.

Goodwill is tested for impairment on an annual basis in accordance with note 2(m) below.

ii. Goodwill/Negative Goodwill Previously Written Off Against Reserves

Goodwill that has previously been taken to reserves is not taken to the profit and loss account when (i) the business is disposed of or discontinued or (ii) the goodwill is impaired. Similarly, negative goodwill that has previously been taken to reserves is not taken to the profit and loss account when the business is disposed of or discontinued.

iii. Research and Development

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognised in the profit and loss account as an expense as incurred.

Expenditure on development activities, whereby research findings are applied to a plan or design for the production of new or substantially improved products and processes, is capitalised if the product or process is technically and commercially feasible and the Group has sufficient resources to complete development. The expenditure capitalised includes the cost of materials, direct labour and an appropriate proportion of overheads. Other development expenditure is recognised in the profit and loss account as an expense as incurred.

Capitalised development expenditure is stated at cost less accumulated amortisation and impairment losses.

Amortisation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of 10 years.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

e. Intangible Assets *(continued)*

iv. Other Intangible Assets

Other intangible assets with finite life are stated at cost less accumulated amortisation and impairment losses. Expenditure on internally generated goodwill is recognised in the profit and loss account as an expense as incurred. Other intangible assets are amortised on a straight-line basis from the date the asset is available for use and over its estimated useful lives from 3 to 10 years.

Intangible assets of indefinite life or not available for use are stated at cost less impairment loss. Such intangible assets are tested for impairment annually in accordance with note 2(m) below.

v. Subsequent Expenditure

Subsequent expenditure on capitalised intangible assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

f. Financial Assets

The Group classifies its financial assets in the following categories: financial assets at fair value through profit and loss; held to maturity investments; loans and receivables and available-for-sale financial assets. The classification depends on the purpose for which the investments are acquired. Management determines the classification of its investments at initial recognition and re-evaluates this designation at every reporting date.

i. Financial Assets at Fair Value

This category has two sub-categories: financial assets held for trading, and those designated at fair value through profit or loss at inception. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term or if so designated by management. Assets in this category are classified as current assets and are stated at fair value, with any resultant gain or loss recognised in the profit and loss account.

ii. Held to Maturity Investments

Where the Group has the positive intent and ability to hold investments to maturity, they are stated at amortised cost (using the effective interest method) less impairment losses.

iii. Loans and Receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of trading the receivable. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. They are classified as non-current assets. Loans and receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. Receivables with a short duration are not discounted. Loans and receivables are included in trade and other receivables in the balance sheet (Note 2(j)).

iv. Available-for-Sale Financial Assets

Other financial assets held by the Group that are either designated in this category or not classified in any other category, are classified as being available-for-sale. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date. They are stated at fair value, with any resultant gain or loss being recognised directly in equity. The exceptions are impairment losses and foreign exchange gains and losses on monetary items such as debt securities, which are recognised in the profit and loss account. When these investments are derecognised, the cumulative gain or loss previously recognised directly in equity is recognised in the profit and loss account. Where these investments are interest bearing, interest calculated using the effective interest method is recognised in the profit and loss account.

Financial assets classified as held-for-trading or available-for-sale are recognised by the Group on the date it receives the financial asset, and derecognised on the date it delivers the financial asset. Other financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred substantially all risks and rewards of ownership.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

f. Financial Assets *(continued)*

Financial assets are initially recognised at fair value plus transaction cost except for financial assets carried at fair value through profit and loss, which are recognised at fair value.

The fair values of quoted financial assets are based on bid price as at balance sheet date. If market for a quoted financial asset is not active and for unquoted financial asset, the Group establishes fair value by using valuation techniques.

Impairment

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. When a decline in the fair value of an available-for-sale financial asset has been recognised directly in equity and there is objective evidence that the value of the asset is impaired, the cumulative loss that had been recognised directly in equity is recognised in the profit and loss account even though the financial asset has not been derecognised. The amount of the cumulative loss that is recognised in the profit and loss account is the excess of acquisition cost less any impairment loss on that financial asset previously recognised in the profit and loss account, over its current fair value.

The recoverable amount of the Group's investments in held-to-maturity securities is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets).

Reversals of Impairment

An impairment loss in respect of a held-to-maturity security or receivable carried at amortised cost is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised.

An impairment loss in respect of an investment in an equity instrument classified as available-for-sale is not reversed through the profit and loss account. If the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the profit and loss account, the impairment loss shall be reversed, with the amount of the reversal recognised in the profit and loss account.

g. Derivatives

Derivative financial instruments are used to manage exposures to foreign exchange, interest rate and commodity price risks arising from operational, financing and investment activities. Derivative financial instruments are not used for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments.

Derivative financial instruments are recognised initially at fair value. Subsequent to initial recognition, derivative financial instruments are remeasured at fair value. The gain or loss on remeasurement to fair value is recognised immediately in the profit and loss account. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged as described in note 2(h).

The fair value of interest rate swaps is the estimated amount that the Group would receive or pay to terminate the swap at the balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparties. The fair value of forward exchange contracts is their quoted market price at the balance sheet date, being the present value of the quoted forward price.

The fair value of fuel oil and naphtha swaps contracts is their quoted market price at the balance sheet date, being the present value of the quoted forward fuel oil price.

Contracts for differences are accounted for based on the difference between contracted price entered with the counterparty and the reference price. Fair value for contracts for differences cannot be reliably measured as the financial instrument does not have quoted market prices in an active market. The gain and loss for contracts for differences are taken to profit and loss upon settlement.

The electricity forward sale with option to buyback contracts is entered with a single counterparty for fixed volume and its fair value is determined based on forward sale and forecasted spot purchase prices quoted in the market as at balance sheet date.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

h. Hedging

i. Fair Value Hedges

Where a derivative financial instrument hedges the changes in fair value of a recognised asset or liability or an unrecognised firm commitment (or an identified portion of such asset, liability or firm commitment), any gain or loss on the hedging instrument is recognised in the profit and loss account. The hedged item is also stated at fair value in respect of the risk being hedged, with any gain or loss recognised in the profit and loss account.

ii. Cash Flow Hedges

Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probable forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in equity. The ineffective part of any gain or loss is recognised immediately in the profit and loss account. When the forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, or the forecast transaction for a non-financial asset or non-financial liability becomes a firm commitment for which fair value hedge accounting is applied, the associated cumulative gain or loss is removed from equity and included in the initial cost or other carrying amount of the non-financial asset or liability. If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or financial liability, the associated gains and losses that were recognised directly in equity are reclassified into the profit and loss account in the same period or periods during which the asset acquired or liability assumed affects the profit and loss account.

When a hedging instrument expires or is sold, terminated or exercised, or the entity revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity and is recognised in accordance with the above policy when the transaction occurs. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss recognised in equity is recognised immediately in the profit and loss account.

iii. Hedge of Monetary Assets and Liabilities

Where a derivative financial instrument is used to hedge economically the foreign exchange exposure of a recognised monetary asset or liability, no hedge accounting is applied and any gain or loss on the hedging instrument is recognised in the profit and loss account.

iv. Hedge of Net Investment in a Foreign Operation

The gain or loss on a financial instrument used to hedge a net investment in a foreign operation is recognised in the company's profit and loss account. On consolidation, only the portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is reclassified to equity. This amount is recognised in the consolidated profit and loss account on disposal of the foreign operation.

i. Inventories

i. Finished Goods and Components

Inventories are stated at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Costs of inventories also include the transfer from equity if any gains/losses on qualifying cash flow hedges relating to purchases of raw materials.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

i. Inventories *(continued)*

i. Finished Goods and Components *(continued)*

The amount of any allowance for write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any allowance for write-down of inventories, arising from an increase in net realisable value, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

ii. Long-term Contracts

The accounting policy for recognition of contract revenue is set out in note 2(t)(ii).

Long-term contracts-in-progress at the balance sheet date are recorded in the balance sheet at cost plus attributable profit less recognised losses, net of progress claims and allowance for foreseeable losses, and are presented in the balance sheet as "Work-in-progress" (as an asset) or "Excess of progress claims over work-in-progress" (as a liability), as applicable. Long-term contract costs include cost of direct materials, direct labour and costs incurred in connection with the project. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Progress claims not yet paid by the customer are included in the balance sheet under "Trade receivables". Amounts received before progress claims are included in the balance sheet, as a liability, as "Advance payments from customer".

iii. Properties Held for Sale

Properties held for sale are stated at the lower of cost and net realisable value.

Cost includes cost of real estate purchased, construction cost, finance cost and other direct expenditure and related overheads incurred during construction. Net realisable value represents the estimated selling price less anticipated cost of disposal.

The carrying amounts are reviewed at each balance sheet date to assess whether they are recorded in excess of their recoverable amounts, and if carrying values exceed these recoverable amounts, assets are written down.

j. Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. Trade receivables with a short duration are not discounted.

A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the profit and loss.

k. Deferred Asset Grants

Asset related grants are credited to a deferred asset grants account and are released to the profit and loss account on the straight-line basis over the estimated useful lives of the relevant assets.

Non-monetary government grants and asset received are valued at nominal amount.

Income related grants are credited to the profit and loss account in the period to which they relate.

l. Cash and Cash Equivalents

Cash and cash equivalents comprise cash balances and bank deposits. For the purpose of the statement of cash flows, cash and cash equivalents are presented net of bank overdrafts which are repayable on demand and which form an integral part of the Group's cash management.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

m. Impairment

The carrying amounts of the Group's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is charged to the profit and loss account unless it reverses a previous revaluation that was credited to equity, in which case it is charged to equity.

Goodwill and other intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually and as and when indicators of impairment occur.

Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to cash-generating units (group of units) and then, to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

i. Calculation of Recoverable Amount

The recoverable amount of assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

ii. Reversals of Impairment

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. However, an impairment loss in respect of goodwill is not reversed.

An impairment loss is reversed only to the extent that the assets' carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

n. Liabilities and Interest-Bearing Liabilities

Trade and other payables and interest-bearing loans are recognised at fair value. Interest-bearing liabilities are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing liabilities are stated at amortised cost with any difference between cost and redemption value being recognised in the profit and loss account over the period of the borrowings on an effective interest basis.

o. Deferred Income

Deferred income relates mainly to advance payments received from customers in respect of connection and capacity charges for the supply and delivery of gas and utilities. Deferred income is amortised on a straight-line basis over the period stipulated in the respective customer contract commencing from the date of supply and delivery of gas and utilities.

p. Employee Benefits

i. Defined Contribution Plans

Contributions to defined contribution plans are recognised as an expense in the profit and loss account as incurred.

ii. Defined Benefit Plans

The Group's net obligation in respect of defined benefit pension plans is calculated separately for each defined benefit plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine the present value, and the fair value of any plan assets is deducted. The discount rate is the yield at balance sheet date on high quality bonds that have maturity dates approximating the terms of the Group's obligations. The calculation is performed by a qualified actuary on a regular basis using a relevant actuary method. In the intervening years the calculation is updated based on information received from the actuary.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

p. Employee Benefits *(continued)*

ii. Defined Benefit Plans *(continued)*

When the benefits of a plan change, the portion of the increased benefit relating to past service by employees is recognised as an expense in the profit and loss account on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the profit and loss account.

Actuarial gains and losses arise mainly from changes in actuarial assumptions and differences between actuarial assumptions and what has actually occurred. They are recognised in the profit and loss account, over the expected average remaining working lives of the employees participating in the plan, only to the extent that their cumulative amount exceeds 10% of the greater of the present value of the obligation and of the fair value of plan assets. Unrecognised actuarial gains and losses are reflected in the balance sheet.

For defined benefit plans, the actuarial cost charged to the profit and loss account consists of current service cost, interest cost, expected return on plan assets and past service cost as well as actuarial gains or losses to the extent that they are recognised. The past service cost for the enhancement of pension benefits is accounted for when such benefit vests or becomes a constructive obligation.

Where the calculation results in a benefit to the Group, the recognised asset is limited to the net total of any unrecognised actuarial losses and past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

iii. Short-Term Compensated Absences

Provision is made when services are rendered by employees that increase their entitlement to future compensated absences.

iv. Staff Retirement Benefits

Retirement benefits payable to certain categories of employees upon their retirement are provided for in the financial statements based on their entitlement under the staff retirement benefit plan or, in respect of unionised employees of a subsidiary who joined on or before December 31, 1988, based on an agreement with the Union.

The Group's net obligation in respect of retirement benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated using the projected future salary increase and is discounted to its present value and the fair value of any related assets is deducted.

v. Equity and Equity-Related Compensation Benefits

Share Option Plan

The share option programme allows the Group's employees to acquire shares of the Group companies. The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. At each balance sheet date, the company revises its estimates of the number of options that are expected to become exercisable. It recognises the impact of the revision of original estimates in employee expense and in a corresponding adjustment to equity over the remaining vesting period.

The proceeds received net of any directly attributable transactions costs are credited to share capital (nominal value) and share premium when the options are exercised.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

p. Employee Benefits *(continued)*

Equity and Equity-Related Compensation Benefits *(continued)*

Performance Share Plan

The fair value of equity related compensation is measured using the Monte Carlo Simulation method as at date of grant. The method involves projecting future outcomes using statistical distributions of key random variables including the share price and the volatility of returns.

In estimating the fair value of the compensation cost, market based performance conditions are taken in account. Therefore, for performance share grants with market based performance conditions, the compensation cost is charged to the profit and loss account on a basis that fairly reflects the manner in which the benefits will accrue to the employee under the plan over the service period to which the performance period relates, irrespective of whether this performance condition is satisfied.

Restricted Stock Plan

An estimate is made for the cost of compensation under the Group's restricted stock plan based on the number of shares expected to be awarded for the year upon satisfactory completion of time-based service conditions, valued at market price at the reporting date. The cost is charged to the profit and loss account on a basis that fairly reflects the manner in which the benefits will accrue to the employee under the plan over the service period to which the performance criteria relate.

q. Provisions

A provision is recognised in the balance sheet when there is a legal or constructive obligation as a result of a past event, the obligation can be reliably estimated and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

r. Deferred Tax

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Temporary differences are not recognised for goodwill not deductible for tax purposes and the initial recognition of assets or liabilities that affect neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax is provided on temporary differences arising on investments in subsidiaries, associates and joint ventures, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not be reversed in the foreseeable future.

s. Share Capital

i. Share Capital

Ordinary share capital is classified as equity.

Preference share capital is classified as equity if it is non-redeemable. Preference share capital is classified as a liability if it is redeemable on a specific date or at the option of the shareholders.

ii. Dividend

Dividends on redeemable convertible preference share capital are recognised as liability on an accrual basis. Other dividends are recognised as liability in the period in which they are declared.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

s. Share Capital *(continued)*

ii. Dividend *(continued)*

Dividends on redeemable convertible preference share capital classified as a liability are accounted for as finance costs. Dividends on ordinary shares and redeemable convertible preference share capital classified as equity are accounted for as movements in revenue reserve.

t. Revenue Recognition

i. Income on Goods Sold and Services Rendered

Revenue on goods sold is recognised when the significant risks and rewards of ownership have been transferred to the buyer. Revenue on service work is recognised when the work is completed. Revenue from warehousing services is recognised over the period of contract. Revenue excludes goods and services or other sales taxes and is after deduction of any trade discounts. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

ii. Contract Revenue

Revenue from repair work, engineering, overhaul, service work and marine and civil construction contracts is recognised based on percentage of completion. The percentage of completion is assessed by reference to surveys of work performed, or by reference to the percentage of costs incurred to-date to the estimated total costs for each contract, with due consideration made to include only those costs that reflect works performed.

When the outcome of a long-term contract can be estimated reliably, contract revenue and costs are recognised as income and expense using the percentage of completion method. When the outcome of a long-term contract cannot be estimated reliably, revenue is recognised only to the extent of contract costs incurred that can probably be recovered and contract costs are recognised as an expense in the period in which they are incurred.

Allowance is made where applicable for any foreseeable losses on contracts as soon as the possibility of the loss is ascertained.

iii. Sale of Electricity and Gases.

Revenue is billed and recognised upon delivery of electricity and gases.

iv. Dividend and Interest Income

Dividend income is recognised in the profit and loss account when the right to receive payment is established.

Interest income is recognised on an accrual basis.

u. Operating Leases

Where the Group has the use of assets under operating leases, payments made under the leases are recognised in the profit and loss account on a straight-line basis over the term of the lease. Lease incentives received are recognised in the profit and loss account as an integral part of the total lease payments made.

v. Finance Costs

Interest expense and similar charges are expensed in the profit and loss account in the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to prepare for its intended use or sale. The interest component of finance lease payments is recognised in the profit and loss account using the effective interest rate method.

w. Segment Reporting

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Notes to the Financial Statements

Year ended December 31, 2005

2. Summary of Significant Accounting Policies *(continued)*

x. Assets Held For Sale

Immediately before classification as held for sale, the measurement of the relevant assets is brought up-to-date in accordance with applicable FRSS. Then, on initial classification as held for sale, non-current assets are measured at the lower of carrying amount and fair value less costs to sell. Any differences are taken to the profit and loss account.

Impairment losses on initial classification as held for sale are included in the profit and loss account, even when there is a revaluation. The same applies to gains and losses on subsequent measurement.

3. Share Capital

	Group and Company	
	2005	2004
	\$'000	\$'000
Authorised:		
2,000,000,000 ordinary shares of \$0.25 each	500,000	500,000
Issued and fully paid:		
1,746,411,878 (2004: 1,826,489,385) ordinary shares of \$0.25 each	436,603	456,623

a. During the financial year, the Company:

- Issued 30,074,945 ordinary shares of \$0.25 each fully paid for cash upon the exercise of options under the Company's Share Option Plan; and
- Cancelled 110,152,452 ordinary shares of \$0.25 each at the price of \$1.95 per share pursuant to a capital reduction exercise.

b. The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

c. As at December 31, 2005, there were 49,746,772 (December 31, 2004: 67,868,202) unissued ordinary shares of \$0.25 each granted under the Company's Share Option Plan.

4. Other Reserves

	Group		Company	
	2005	2004	2005	2004
	\$'000	\$'000	\$'000	\$'000
Share premium	313,618	296,628	313,618	296,628
Merger reserve	29,201	29,201	-	-
Other reserves	62,275	42,053	2,444	528
Currency translation reserve	14,192	31,463	-	-
	419,286	399,345	316,062	297,156

a. Share Premium

The application of the share premium account is governed by Section 69 of the Companies Act, Chapter 50.

On the date of commencement of the Companies (Amendment) Act 2005 on January 30, 2006 :

- The concept of authorised share capital was abolished;
- Shares of the Company ceased to have par value; and
- Amounts standing to the credit of the Company's share premium account became part of the Company's share capital.

b. Merger Reserve

Merger reserve represents the difference between the nominal value of shares issued by the Company in exchange for the nominal value of shares acquired in respect of the acquisition of subsidiaries accounted for under the pooling of interests method.

Transfer of revenue reserves to statutory reserve by associated companies	3,468	-	-	-	3,468	-
At December 31, 2005	41,691	12,353	31,720	(23,489)	62,275	2,444

Other reserves includes:

- i. Capital reserve comprises capitalisation of accumulated profits for issue of bonus shares, capital reserve (net of goodwill) on consolidation and equity accounting, capital redemption reserve and convertible loan stock reserve.
- ii. Share option reserve comprises the cumulative value of employee services received for the issue of share options. The amount in the share option reserve is retained when the option is exercised or expired.
- iii. Fair value reserve includes the cumulative net change in the fair value of available-for-sale investments until the investment is derecognised.
- iv. Hedging reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedging instruments related to hedged transactions that have not yet occurred.

d. Currency Translation Reserve

The currency translation reserve comprises:

- i. foreign exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from the functional currency of the Company; and
- ii. the exchange differences on monetary items which form part of the Group's net investment in foreign operations.

5. Property, Plant and Equipment *(continued)*

- i. The depreciation charge of the Group in the profit and loss account for the year is arrived at as follows:

	Note	2005	2004
		\$'000	\$'000
Charge for the year		181,353	180,967
Net amount included in work-in-progress now charged to profit and loss / (capitalised in work-in-progress)		1,496	(814)
	29(b)	182,849	180,153

- ii. Property, plant and equipment with the following net book values have been pledged to secure loan facilities granted to subsidiaries:

	2005	2004
	\$'000	\$'000
Freehold land and buildings	174,091	181,977
Leasehold land and buildings	52,442	94,767
Plant and machinery	693,720	747,131
Capital work-in-progress	65,993	10,480
Other assets	3,551	4,045
	989,797	1,038,400

- iii. Assets with net book value of \$2,107,000 (2004: \$9,061,000) were acquired under finance lease.
- iv. Included in the cost of leasehold land and buildings, quays and dry docks and plant and machinery are amounts of \$120,866,000, \$100,900,000 and \$667,000 respectively which were stated at valuation. The revaluation was done on a one off basis prior to January 1, 1997.
- v. During the year, interest and direct staff costs were capitalised amounting to \$425,000 (2004: \$22,000) and \$869,000 (2004: \$Nil), respectively.
- vi. The impairment in 2005 relates mainly to the write-down of factories in China to recoverable amount and has been recognised in the "General and administrative expenses" of the profit and loss account.

Allowances for impairment losses	(201,574)	(80,574)
Carrying value	2,275,587	2,791,110

Details of subsidiaries are set out in note 43 to the financial statements.

Pursuant to SembCorp Logistics Ltd's capital reduction in May 2005, the Company's investment in quoted equity shares reduced by \$151,079,000 during the year.

During the year, the directors of the Company have assessed the recoverable amount of the investment in a subsidiary based on its net asset value as at December 31, 2005. An impairment loss of \$121,000,000 was recognised in the Company's profit and loss account for 2005.

7. Interests in Associates

	Group	
	2005	2004
	\$'000	\$'000
Interests in associates	294,755	289,646

Carrying value as at year end includes goodwill on acquisition as follows:

	Group	
	2005	2004
	\$'000	\$'000
Balance at beginning of the year	6,970	6,970
Disposal of an associate	(756)	-
Impairment during the year	(6,214)	-
Balance at end of the year	-	6,970

An associated company made losses for the year 2005 and based on management's assessment of the recoverable amount as reflected in the associated company's financial statements, an impairment of \$6.2 million has been recognised in the "General and administrative expenses" of profit and loss account during the year.

The financial information of the associates are as follows:

	2005		2004	
		\$'000		\$'000
Results				
Turnover		1,826,843		11,372,023

Assets and Liabilities				
Total assets		2,076,223		1,714,701
Total liabilities		1,250,289		818,289

Notes to the Financial Statements

Year ended December 31, 2005

7. Interests in Associates *(continued)*

The financial information of the associates disclosed above relates to the 100% of the associates.

The Group has not recognised losses relating to certain associates where its share of losses exceed the Group's carrying amount of its investment in those associates. The Group's cumulative share of unrecognised losses was \$58,982,000 (2004: \$58,309,000), of which \$673,000 was the share of the current year's losses (2004: \$1,024,000). The Group has no obligation in respect of these losses.

In 2004, an investment in one of the associates amounting to \$23,612,000 was pledged to banks to secure loan facilities granted to the associate. This associate was disposed of in 2005.

Details of the associates are set out in note 44 to the financial statements.

8. Interests in Joint Ventures

	Group	
	2005	2004
	\$'000	\$'000
Interests in joint ventures	431,711	387,997

Carrying value as at year end include goodwill on acquisition as follows:

	Group	
	2005	2004
	\$'000	\$'000
Balance at beginning of the year	2,371	1,221
Translation during the year	(141)	-
Additions during the year	-	1,150
Balance at end of the year	2,230	2,371

The Group's share of the results and balance sheets of the joint ventures are as follows:

	Group's share	
	2005	2004
	\$'000	\$'000
Results		
Turnover	707,055	449,650
Expenses	(658,997)	(414,677)

		\$'000	\$'000
b. Current Assets			
Assets available-for-sale:			
- Equity shares		2,891	-
- Bonds and loan stocks		-	1,688
Derivative financial instruments:			
Cash flow hedges:			
- Interest rate swaps		4,446	-
- Forward foreign exchange contracts		279	-
Fair value through profit or loss:			
- Foreign exchange swap contracts		225	-
- Forward foreign exchange contracts		12	-
	15	7,853	1,688

With the adoption of FRS 39, the Group states its financial assets at fair value. In accordance with the transitional provisions of FRS 39, the adoption of FRS 39 has been accounted for prospectively. Where applicable, the differences between the fair values and carrying amounts of these financial assets at January 1, 2005 are taken to the opening balance of fair value reserve or revenue reserve at that date.

10. Long-Term Receivables and Prepayments

		146,152	198,143

Notes to the Financial Statements

Year ended December 31, 2005

10. Long-Term Receivables and Prepayments *(continued)*

a. Prepayments

Prepayments relate primarily to:

- i. Connection fees prepaid under the Generation Connection and Use of System Agreement for the use of the transmission lines; and
- ii. Service fees prepaid under the Gasoil Supply and Storage Agreement for the usage of the tanks.

Prepayments are charged on a straight-line basis over the period of prepayments.

b. Recoverables

Recoverables relate primarily to costs incurred by a subsidiary on behalf of a customer for the construction of a warehouse. This amount is recoverable over the contract period in which the subsidiary provides services to the customer.

11. Lease Receivables

Group		Minimum lease payment	Estimated residual value	Total gross investment in lease	Unearned interest income	Net value of lease receivables

12. Intangible Assets *(continued)*

Impairment Testing for Goodwill

SUT Division

Goodwill of \$18.9 million is allocated to one of the Group's cash-generating units ("CGUs") in SUT Division. This division's activities are those relating to the production and supply of utilities services, terminalling and storage of petroleum products and chemicals. The recoverable amount of the CGU is determined based on calculations of the value in use.

These calculations use cash flow projections based on the financial budget for 2006 approved by the management. Cash flows beyond the budget period are estimated based on the long-term offtake contracts with its existing customers in the captive market in which it operates.

Management has applied past experience in operating the business to forecast the performance. The key assumption applied for the budget for 2006 is that there are no significant changes to the customer base, hence the annual fixed revenue and gross profit margin remains stable relative to the prior year.

A discount rate of 6.03% has been applied to the cash flow projections.

At the balance sheet date, based on the key assumptions, management believes that the recoverable amount exceeds its carrying amount.

SembCorp Cogen Pte Ltd ("SembCorp Cogen")

Goodwill of \$26.4 million is allocated to one of the Group's CGUs in SembCorp Cogen. The recoverable amount of a CGU is determined based on calculations of the value in use.

These calculations use cash flow projections based on the financial budget for 2006 approved by management. Cash flows beyond the budget period are estimated based on plant availability and load factors as well as changes in operating costs due to normal wear & tear, maintenance cycles and inflation.

Management has applied past experience in operating the business to forecast the performance. The key assumptions applied are as follows:

- i. There are no significant changes in market demand and supply for electricity and electricity spark spread compared to prior year;
- ii. Required plant maintenance and its associated maintenance costs have been accounted for in the forecast of the plant's gross profit margin for 2006; and
- iii. Expected capital expenditure for replenishment of parts has also been accounted for in the forecast in accordance with plant maintenance program.

A discount rate of 6.03% has been applied to the cash flow projections.

At the balance sheet date, based on the key assumptions, management believes that the recoverable amount exceeds its carrying amount.

SembCorp Gas Pte Ltd ("SembCorp Gas")

Goodwill of \$42.0 million is allocated to one of the CGUs in SembCorp Gas. The recoverable amount of a CGU is determined based on calculations of the value in use.

These calculations use cash flow projections based on the financial budget for 2006 approved by management. Cash flows beyond the budget period are estimated based on the contracted sales and purchase quantities of gas over the remaining period of the existing contracts with the major customers and the gas supplier.

Notes to the Financial Statements

Year ended December 31, 2005

12. Intangible Assets *(continued)*

Impairment Testing for Goodwill *(continued)*

SembCorp Gas Pte Ltd ("SembCorp Gas") *(continued)*

Management has applied past experience in operating the business to forecast the performance. The key assumptions applied are as follows:

- i. Depreciating USD/SGD exchange rate and appreciating HSFO prices compared to the prior year;
- ii. Gross profit margin is expected to remain stable as the pricing on both customer and supplier contracts are pegged to HSFO prices; and
- iii. Expected capital expenditure for plant refurbishment.

A discount rate of 6.03% has been applied to the cash flow projections.

At the balance sheet date, based on the key assumptions, management believes that the recoverable amount exceeds its carrying amount.

SembCorp Simon-Carves Limited ("SSC")

Goodwill of \$32.2 million is allocated to one of the Group's CGUs in SSC. The recoverable amount of a CGU is determined based on calculations of the value in use.

These calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period, i.e. the next 2 years thereafter, have been maintained at a zero growth rate.

The key assumptions applied are as follows:

- i. Budgeted revenue based on estimated contract value of potential projects for which SSC has submitted tenders or secured as at balance sheet date;
- ii. Budgeted average gross profit margin based on those achieved in the period immediately before the budget period, adjusted for expected efficiency improvements and inflation;
- iii. Forecast consumer price indices during the budget period for countries from which raw materials are purchased are consistent with external sources of information; and
- iv. Expected project progress and timing of certification of contract sums by customers are based on past experience on similar projects.

A discount rate of 9.30% has been applied to the cash flow projections.

At the balance sheet date, based on the key assumptions, management believes that the recoverable amount exceeds its carrying amount.

Notes to the Financial Statements

Year ended December 31, 2005

12. Intangible Assets *(continued)*

Impairment Testing for Goodwill *(continued)*

SembRamky Environmental Management Private Limited (formerly known as Medicare Incin Private Limited)

Goodwill of \$4.4 million is allocated to one of the Group's CGUs in SembRamky Environmental Management Private Limited. The recoverable amount of the CGU is determined based on calculations of the value in use.

These calculations use cash flow projections based on management's 10-years financial projection of the company.

Management has applied past experience in the business operations to forecast its performance for the next 10 years. The key assumptions applied are as follows:

- i. 10% and 7% growth in volume for 1st year and 2nd year, respectively;
- ii. 1% growth in volume for the remaining 8 years;
- iii. Expanded area of operation from licence to operate in New Delhi in 2006;
- iv. Waste disposal fees to increase annually at the rate of inflation of the country of operation; and
- v. All operating expenses to increase annually at the rate of inflation of the country of operation.

A discount rate of 7.1% has been applied to the cash flow projections.

At the balance sheet date, based on the key assumptions, the management believes that the recoverable amount exceeds its carrying amount.

ST Airport Services Pte Ltd ("ST Airport")

Goodwill of \$7.9 million is allocated to one of the Group's CGUs in ST Airport. The recoverable amount of the CGU is its value in use. The value in use is computed using the cash flow projections based on financial budgets approved by management covering a three-year period. Cash flow projections are prepared based on the projected sales and purchase quantities of aviation fuel with the major customers and the aviation fuel suppliers.

Management has applied past experience in operating the business to forecast its performance for the next three years. Management assumes that there will be no significant changes to the customer base, hence the annual contracted revenue and gross profit margin for the most recent forecast from year 2006 to year 2008 remains stable.

A discount rate of 6.3% has been applied to the cash flow projections.

At the balance sheet date, based on the key assumptions, management believes that the recoverable amount exceeds its carrying amount.

Company

The deferred tax liabilities as at December 31, 2005 and 2004 relates to property, plant and equipment.

Deferred tax liabilities and assets are set off when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same taxation authority. The following amounts, determined after appropriate offsetting are as follows:

	Group		Company	
	2005 \$'000	2004 \$'000	2005 \$'000	2004 \$'000
Deferred tax liabilities	(220,095)	(150,648)	(195)	(195)
Deferred tax assets	26,285	19,092	-	-
	(193,810)	(131,556)	(195)	(195)

Notes to the Financial Statements

Year ended December 31, 2005

13. Deferred Tax (continued)

The following items have not been included in the computation of deferred tax assets:

	Group		Company	
	2005	2004	2005	2004
	\$'000	\$'000	\$'000	\$'000
Deductible temporary differences	67,152	114,612	-	8,883
Tax losses	230,267	377,529	-	-
Capital allowances	91,146	94,453	-	-
	388,565	586,594	-	8,883

Of the above tax losses, tax losses of the Group amounting to \$107,360,000 (2004: \$100,275,000) will expire between 2006 and 2020 (2004: 2005 and 2019). The deductible temporary differences and capital allowances do not expire under current tax legislation.

Deferred tax assets have not been recognised under the following circumstances:

- Where they are qualified for offset against the tax liabilities of member companies within the Group under the Loss Transfer System of Group Relief but the terms of the transfer have not been ascertained as at year end; and
- Where it is uncertain that future taxable profit will be available against which the Group can utilise the benefits.

16. Asset Held For Sale

The asset held for sale is a vessel, which was acquired in June 2004 when a subsidiary exercised its rights as mortgagee to take possession of the asset when the owners defaulted on their payment under financing terms granted in respect of the vessel's repairs. The legal title of the vessel was transferred to a subsidiary company upon possession of the vessel.

In 2005, a memorandum of agreement to dispose the vessel has been signed with a buyer, and an impairment loss of \$963,000 to write down the cost to its recoverable amount had been recognised in the "Non-operating expenses" of the profit and loss account.

17. Bank balances, Fixed Deposits and Cash

The use of subsidiaries' cash and cash equivalents of \$129,466,000 (2004: \$132,220,000) is restricted to working capital purpose and repayments of loan in accordance with the terms stipulated in the loan agreement entered by the subsidiary with its bankers.

Loan Undertakings

This relates to the Group's share of loan undertakings of associates, a subsidiary and other investee companies.

Obligations Relating to Disposal of Business

This mainly relates to the disposal of marine services business in which a subsidiary retains certain obligations in respect of outstanding receivables, salvage and insurance claims, and vessels condition pursuant to the Sales and Purchase Agreement.

Net Exposure Arising from Legal Claims

The provision represents the Group's exposure to the ongoing litigation, as detailed in note 37.

Provision for Onerous Contracts

A subsidiary has long-term power purchase and site service agreements with a customer. Based on certain contract terms, which the subsidiary considered to be onerous, a provision was made for the future anticipated excess costs that are expected to be incurred. These were calculated based on forward commodity market prices and discounted to net present value. On remeasurement in 2005, the onerous contract provision was no longer required as a result of favourable movement in forward commodity market prices.

Notes to the Financial Statements

Year ended December 31, 2005

19. Provisions *(continued)*

Provision for Claims

This provision relates to the obligations arising from contractual and commercial arrangements in a subsidiary's operations, based on the best estimate of the outflow considering both contractual and commercial factors. These claims are expected to be settled within the next 12 months.

Others

This relates mainly to provision for:

- i. Losses and other claims in respect of customers' inventories managed by a subsidiary;
- ii. Warranty in respect of a completed project. The provision is based on estimates made from historical warranty data associated with similar projects;
- iii. Restoration costs relating to cost of dismantling and removing assets and restoring the premises to its original condition as stipulated in the operating lease agreements. The subsidiary expects to incur the liability upon termination of the lease; and
- iv. Deferred contingent consideration in respect of amounts payable by a subsidiary under the purchase agreement for assets and working capital subject to the satisfaction of certain conditions. The outstanding liability has been settled as at December 31, 2005.

		48,124	58,882	2,028	3,297

a. Share-based Incentive Plans

The Company's Share Option Plan, Performance Share Plan and Restricted Stock Plan (collectively, the "Share Plans") were approved and adopted by the shareholders at an Extraordinary General Meeting of the Company held on June 3, 2000.

The Executive Resource & Compensation Committee (the "Committee") of the Company has been designated as the Committee responsible for the administration of the Share Plans. The Committee comprises the following members, all of whom are directors:

Peter Seah Lim Huat (Chairman)
Goh Geok Ling
K Shanmugam

The Share Option Plan is the incentive scheme for directors and employees of the Company and its subsidiaries (the "Group") whereas the Performance Share Plan and Restricted Stock Plan are aimed primarily at key executives of the Group.

The Share Option Plan provides the Company with means whereby non-executive directors and employees of the Group, and certain categories of persons who can make significant contributions through their close working relationship with the Group, such as non-executive directors and employees of the Company's Parent Company and non-executive directors and employees of the company's associated company, are given an opportunity to participate in the equity of the Company.

Notes to the Financial Statements

Year ended December 31, 2005

20. Employee Benefits *(continued)*

a. Share-based Incentive Plans *(continued)*

Under the rules of the Share Option Plan, participants who ceased to be employed by the Group, Parent Group or the associated company by reason of ill health, injury or disability, redundancy, retirement at or after the legal retirement age, retirement before the legal retirement age, death, etc, or any other event approved by the Committee, may be allowed by the Committee to retain their unexercised Options. The Committee may determine the number of Shares comprised in that Option which may be exercised and the period during which such Option shall be exercisable, being a period not later than the expiry of the Exercise Period in respect of that Option. Such Option may be exercised at any time notwithstanding that the date of exercise of such Option falls on a date prior to the first day of the Exercise Period in respect of such Option.

The Company designates Temasek Holdings (Private) Limited as the Parent Company.

The Performance Share Plan and Restricted Stock Plan award fully paid shares to participants to achieve pre-determined targets that create and enhance economic values for shareholders of the Company, and/or to accomplish time-based service conditions. Awards will be released to participants as fully-paid shares, or their equivalent cash value or combinations thereof, free-of-charge provided that the conditions of the awards are achieved and subject to approval by the Committee.

Awards granted under the Performance Share Plan are released at the end of the performance period only when the pre-determined targets have been achieved. Awards granted under the Restricted Stock Plan vest only after satisfactory completion of time-based service conditions, or where the award is performance related, after a further period of service beyond the performance target completion date. No minimum vesting period is prescribed under the Restricted Stock Plan and the length of the vesting period in respect of each award will be determined on a case-by-case basis. Performance-based restricted awards differ from awards granted under the Performance Share Plan in that an extended vesting period is imposed beyond the performance target completion date.

The Share Plans are intended to attract, retain and incentivise participants to higher standards of performance and encourage greater dedication and loyalty by enabling the Company to give recognition to past contributions and services; as well as motivating participants to contribute to the long-term prosperity of the Group.

Other information regarding the Share Option Plan is as follows:

- i. The exercise price of the options can be set at a discount to the market price not exceeding 20% of the market price in respect of options granted at the time of grant.
- ii. The options can be exercised 12 months after the grant for market price options and 24 months for discounted options. Further vesting period for the exercise of the options may be set. The Group imposed a further vesting over 4 years for managers and above for retention purposes.
- iii. The options granted expire after 5 years for non-executive directors, associated company's employees and 10 years for the employees of Group and Parent Company.

Share Option Plan (continued)

Options exercised in 2005 resulted in 30,074,945 (2004: 4,774,321) ordinary shares being issued at a weighted average price of \$1.55 (2004: \$1.09). Options were exercised on a regular basis throughout the year. The weighted average share price during the year was \$2.44 (2004: \$1.43).

The fair value of services received in return for share options granted are measured by reference to the fair value of share options granted. The estimate of the fair value of the services received is measured based on a Black-Scholes model. The expected life used in the model has been adjusted; based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

i. SembCorp Industries Ltd

Date of grant	Jul 1, 2005	Nov 11, 2005
Fair value at measurement date	\$0.60	\$0.60
Share price	\$2.71	\$2.71
Exercise price	\$2.68	\$2.67
Expected volatility	29.5% – 32.9%	27.7% – 32.1%
Expected option life	2.5 – 5.5 years	2.5 – 5.5 years
Expected dividend	2.07%	2.07%
Risk-free interest rate	1.9% – 2.4%	2.7% – 3.2%

ii. SembCorp Logistics Ltd

Date of grant	May 16, 2005	Aug 24, 2005
Fair value at measurement date	\$0.26	\$0.24
Share price	\$1.71	\$1.63
Exercise price	\$1.71	\$1.69
Expected volatility	24.3%	24.3%
Expected option life	1.5 – 4.5 years	1.5 – 4.5 years
Expected dividend	1.6%	1.7%
Risk-free interest rate	2.09% – 2.49%	1.92% – 2.34%

iii. SembCorp Marine Ltd

Date of grant	Aug 11, 2005
Fair value at measurement date	\$0.47
Share price	\$2.90
Exercise price	\$2.96
Expected volatility	25.45% – 30.41%
Expected option life	1.5 – 4.5 years
Expected dividend	2.55%
Risk-free interest rate	1.99% – 2.36%

The expected volatility is based on the historical volatility over the most recent period that commensurate with the expected life of the option.

There are no market conditions associated with the share option grants. Service conditions and non-market performance conditions are not taken into account in the grant date fair value measurement of the services received.

Performance Share Plan

Under the Performance Share Plan, the awards granted conditional on performance targets are set based on medium-term corporate objectives at the start of each rolling three-year performance qualifying period. A specific number of performance shares shall be awarded at the end of the 3-year performance cycle depending on the extent of the achievement of the performance conditions established at the onset.

In 2005, the Committee, with advice and assistance from an independent compensation consultant, redesigned its approach to the share-based incentive awards, with particular focus on establishing new standards for share-based incentive grants. The redesigned share-based incentive grants took into account evolving practices at other major public-listed companies, as well as the Company's objective of further enhancing linkages between employee performance and long-term shareholder value creation objectives. The redesign was completed and implemented in 2005.

For awards granted before 2005, recipients who do not achieve at least 80% of the targets set at the end of the performance period will not be granted the performance shares. If the achievement of the targets exceeds 100%, more performance shares than the original award could be delivered up to a maximum of 200% of the original award.

In the 2005 performance share award, the performance criteria was changed and performance levels re-calibrated based on the new measures, namely Wealth Added and Total Shareholders' Return. For each performance measure, three distinct performance levels are set. A minimum of threshold performance must be achieved to trigger an Achievement Factor, which in turn determines the number of shares to be finally awarded.

Based on the new criteria, performance shares to be delivered for awards granted in 2005 will range between 0% to 150% of the original award.

Participants are also required to hold a minimum percentage of the shares released to them under the Performance Share Plan to maintain a beneficial ownership stake in the Group, for the duration of their employment or tenure with the Group. A maximum cap is set based on a multiple of the individual participant's Annual Base Salary. Any excess can be sold off, but in the event of a shortfall, they have a two calendar year period to meet the minimum percentage requirement.

During the year, a total of 157,500 performance shares were released by the Committee to the participants for the performance period 2002 to 2004. Of the 157,500 performance shares released, 84,000 were released to the estate of Mr Wong Kok Siew (deceased on February 16, 2005) a former key executive and executive director of the Board, via the release of cash in-lieu of share awards at \$2.00 per share on April 12, 2005, as approved by the Committee.

During the year, the Committee also approved the release of 113,400 performance shares for the performance period 2003 to 2005 and 39,200 performance shares for the performance period 2004 to 2006 to the estate of Mr Wong Kok Siew via the release of cash in-lieu of share awards at \$2.00 per share on April 12, 2005. The number of performance shares released to the estate of Mr Wong Kok Siew was pro-rated for the completed performance period.

Notes to the Financial Statements

Year ended December 31, 2005

20. Employee Benefits (continued)

Performance Share Plan (continued)

The details of performance shares of the Company awarded during the year since commencement of the Performance Share Plan (aggregate) were as follows:

	Aggregate Conditional Shares Awarded during the year	Aggregate Conditional Shares Awarded	Aggregate Conditional Shares Released	Aggregate Conditional Shares Lapsed	Aggregate Conditional Shares Outstanding
Performance Shares Participants					
Director of the Company					
Tang Kin Fei	400,000	1,040,000	(56,000) [@]	(284,000)	700,000
Former Directors of the Company	-	1,780,000	(341,600)	(1,438,400)	-
Key Executives of the Group	470,000	2,230,000	(133,000)	(1,097,000)	1,000,000
	870,000	5,050,000	(530,600)	(2,819,400)	1,700,000

@ For performance period prior to Mr Tang Kin Fei's appointment as Group President & CEO of the Group.

The total number of performance shares in awards granted conditionally and representing 100% of targets achieved, but not released as at end 2005, was 1,700,000. Based on the multiplying factor, the actual release of the awards could range from zero to a maximum of 2,965,000 performance shares.

For performance share plan awarded prior to January 1, 2005, an initial estimate is made for the cost of compensation and based on the number of shares expected to be released at the end of the performance period, valued at market price at the date of the grant of the award. During the current financial year, the Group has charged \$1,271,000 (2004: \$1,772,000) to the profit and loss account in respect of performance shares awarded prior to January 1, 2005 based on the market values of the shares at reporting date. The balance of \$2,028,000 in liabilities as at December 31, 2005 represents the compensation cost for performance shares awarded prior to 2005. The final measure of compensation cost is based on the number of shares ultimately released and the market price at the date the performance criteria are met.

For performance shares awarded from January 1, 2005, the Group has charged \$776,000 based on fair value of performance shares at grant date.

Restricted Stock Plan

During the year, an award of 400,000 restricted stocks was vested to Mr Wong Kok Siew (deceased on February 16, 2005), a former key executive and executive director of the Board. This was issued to his estate during the year via the release of cash in-lieu of share awards at \$1.90 per share as approved by the Committee. A total 1,000,000 restricted stocks was vested and issued to him since 2002.

In 2005, no restricted stock has been awarded under the Restricted Stock Plan.

b. Provision for Retirement Benefits and Gratuities

Movements in provision for retirement benefits and gratuities are as follows:

	Group	
	2005	2004
	\$'000	\$'000
Balance at beginning of the year	55,585	51,135
Translation adjustments	(3,391)	3,635
Provision made during the year, net of amount written back	1,986	1,519
Provision utilised	(8,084)	(704)
Balance at end of the year	46,096	55,585

Notes to the Financial Statements

Year ended December 31, 2005

20. Employee Benefits *(continued)*

c. Defined Benefit Obligations

The Group's two subsidiaries in United Kingdom provide pension arrangement to its employees through a defined benefit plan and the related costs are assessed in accordance with the advice of professionally qualified actuaries. The pension scheme is funded by the payment of contributions to separately administered trust funds.

The details of the plans are as follows:

	Group	
	2005	2004
	\$'000	\$'000
Present value of unfunded obligations	46,346	33,471
Present value of funded obligations	330,861	285,293
Fair value of plan assets	(273,272)	(227,517)
Present value of net obligations	103,935	91,247
Actuarial losses not recognised in accordance with FRS 19	(61,420)	(39,370)
Net liability	42,515	51,877

	Group	
	2005	2004
	\$'000	\$'000
Movements in the net liability are as follows:		
At beginning of the year	51,877	46,705
Contributions to pension fund	(16,039)	(8,917)
Expenses recognised during the year	10,758	10,454
Translation difference	(4,081)	3,635
	42,515	51,877

Expense recognised in the profit and loss account

	Note	Group	
		2005	2004
		\$'000	\$'000
Current service costs		9,132	9,090
Interest on obligation		15,570	14,365
Expected return on plan assets		(15,438)	(14,230)
Actuarial losses		1,494	1,229
	29(a)	10,758	10,454

The expense is recognised in the following line items in the profit and loss account:

	Group	
	2005	2004
	\$'000	\$'000
Cost of sales	6,786	6,636
Administrative expenses	2,318	4,048
Finance costs / (income) (net)	1,654	(230)
	10,758	10,454
Actual return in value of plan assets	7,131	5,699

Notes to the Financial Statements

Year ended December 31, 2005

After 5 years	228,734	187,327	-	-
Total borrowings	1,056,387	1,785,543	150,000	400,000

Notes to the Financial Statements

Year ended December 31, 2005

21. Interest-Bearing Borrowings (continued)

a. The secured loans are collateralised by the following assets:

	Net Book Value	
	2005	2004
	\$'000	\$'000
Property, plant and equipment	989,797	1,038,400
Trade receivables	9,739	-
Other current assets	6,562	-
	1,006,098	1,038,400

b. Unsecured Term Loans

Included in the unsecured term loans are medium term notes of the Group as follows:

- In 2004, a wholly owned treasury vehicle of the Company, SembCorp Financial Services Pte Ltd (the "Issuer"), established a \$1.5 billion Multicurrency Multi-Issuer Debt Issuance Programme (the "Programme"). Pursuant to this, the Company, together with other subsidiaries of the Company (together with the Issuer, the "Issuing Subsidiaries"), may from time to time issue debt under the Programme. The obligations of the Issuing Subsidiaries under the Notes will be fully guaranteed by the Company.

No further debt issuances will be made by the Company under its Existing Programme, and the outstanding debt issuances of \$150 million will be allowed to mature on June 6, 2008. Upon maturity of the outstanding debt issued, the Existing Programme will be terminated.

- In 2004, a subsidiary, SembCorp Marine Ltd ("SCM") established a \$500 million Multicurrency Multi-Issuer Debt Issuance Programme (the "Programme") pursuant to which the subsidiary together with its subsidiaries Jurong Shipyard Pte Ltd and Sembawang Shipyard Pte Ltd ("Issuing SCM Subsidiaries"), may from time to time issue the notes. The obligations of Issuing SCM Subsidiaries under the Notes will be fully guaranteed by SCM.

The 1st series of \$150 million 5-year fixed rate notes issued by SCM on September 27, 2004, is redeemable at par on September 26, 2009 and bears fixed interest rate of 3.0% per annum and is listed on the Singapore Exchange Securities Trading Limited.

c. Finance Leases Liabilities

The Group has obligations under finance leases that are payable as follows:

	2005			2004		
	Payments	Interest	Principal	Payments	Interest	Principal
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Group						
Within 1 year	798	55	743	2,384	108	2,276
After 1 year but within 5 years	1,051	112	939	1,646	97	1,549
After 5 years	-	-	-	3	-	3
	1,051	112	939	1,649	97	1,552
Total	1,849	167	1,682	4,033	205	3,828

Under the terms of the lease agreements, no contingent rents are payable. The interest rates range from 2.5% to 15.48 % (2004: 2.6% to 14.1%) per annum.

Notes to the Financial Statements

Year ended December 31, 2005

21. Interest-Bearing Borrowings (continued)

d. Convertible Bond

On January 1, 2005, a subsidiary, entered into a Convertible Bond Agreement ("Agreement") amounting to \$62,046,000 with a related party of a minority shareholder (lender) to convert its term loan liability into a convertible bond. The interest rate is 1.5% above 3 months SIBOR and the lender has the right to convert in whole or in part the loan to shares in the subsidiary and at anytime before December 31, 2009, the due date of the loan repayment. The loan is redeemable in whole or in part at anytime.

22. Other Long-Term Liabilities

	Note	Group	
		2005	2004
		\$'000	\$'000
Deferred income	(a)	41,939	46,176

i. Included in loans due from joint ventures is 1% unsecured loan stocks 1999 of \$5,250,000 (2004: \$5,250,000) which may, at the option of a subsidiary, be converted at a certain ratio into shares in whole or in part at any time prior to the maturity date provided that all the stockholders shall convert the stocks at the same time. The maturity date of the loan stocks is October 16, 2006.

ii. The long-term loans to associates and joint ventures are unsecured and are not expected to be repaid in the next 12 months. The loans to joint ventures, associates and related companies of \$39,221,000 bear interest ranging from 2% to 5.25% (2004: 4% to 7%) per annum.

iii. Included in loans due from related companies in 2004 are floating rate notes of \$18,000,000 issued by a related corporation, ST Treasury Services Limited and guaranteed by a related corporation, Singapore Technologies Pte Ltd. Interest on the floating rate notes ranged from 0.88% to 1.52% per annum. These notes have been redeemed in 2005.

Weighted average number of ordinary shares	1,769,628	1,823,203

Notes to the Financial Statements

Year ended December 31, 2005

31. Earnings Per Share *(continued)*

	Group	
	2005	2004
	\$'000	\$'000

b. Diluted earnings per share

Diluted earnings per share is based on:

i. Profit attributable to shareholders of the Company	303,295	391,488
---	---------	---------

ii. Weighted average number of ordinary shares

For the purpose of calculating the diluted earnings per ordinary share, the weighted average number of ordinary shares in issue is adjusted to take into account the dilutive effect arising from the dilutive share options and contingently issuable shares, with the potential ordinary shares weighted for the period outstanding.

The weighted average number of ordinary shares adjusted for the unissued ordinary shares under the Share Option Plan was arrived at as follows:

	Group	
	2005	2004
	\$'000	\$'000
	No. of shares '000	No. of shares '000
Weighted average number of shares issued used in the calculation of basic earnings per share	1,769,628	1,823,203
Weighted average number of unissued ordinary shares under Share Option Plan	49,152	21,955
Number of shares that would have been issued at fair value	(30,829)	(18,364)
Weighted average number of ordinary shares	<u>1,787,951</u>	<u>1,826,794</u>

32. Dividends

The directors have proposed a final dividend of 6.5 cents per share less tax (2004: 5 cents per share less tax) in respect of the financial year ended December 31, 2005. The proposed dividend is subject to approval by shareholders at the next Annual General Meeting to be convened and has not been included as a liability in the financial statements.

Subject to the approval by the shareholders at the next Annual General Meeting to be convened, dividend for the current financial year will be 6.5 cents per share less tax (2004: 11.25 cents per share less tax, comprising special interim dividend of 6.25 cents and final dividend of 5 cents).

33. Change in Accounting Policies

The accounting policies set out in note 2 have been applied in preparing the financial statements for the year ended December 31, 2005.

The changes in accounting policies arising from the adoption of FRS 39 Financial Instruments: Recognition and Measurement, FRS 102 Share-based Payment and FRS 21 (revised) The Effects of Changes in Foreign Exchange Rates are summarised below:

FRS 39 – Financial Instruments: Recognition and Measurement

The adoption of FRS 39 resulted in the Group measuring its derivative financial instruments and available-for-sale investments as assets or liabilities at fair values. Financial assets and financial liabilities are stated at amortised cost instead of cost. Previously, investments were stated at cost less impairment and derivative financial instruments were not recorded on the balance sheet. Where a derivative or non-derivative financial instrument is an effective hedge in a cash flow hedge relationship, the change in fair value of the hedging instrument relating to the effective portion is recorded in equity.

This change in accounting policy has been accounted for prospectively in accordance with the transitional provisions. The adoption of FRS 39 has resulted in an increase of \$6.9 million in Other Reserves and a decrease of \$17.5 million in Accumulated Profits as at January 1, 2005, net of the related deferred taxes. Comparatives have not been restated.

Notes to the Financial Statements

Year ended December 31, 2005

33. Change in Accounting Policies *(continued)*

FRS 102 – Share-based Payment

In accordance with the transitional provisions, FRS 102 has been applied to all grants after November 22, 2002 that were not yet vested as at January 1, 2005. The adoption of FRS 102 has resulted in a change in the Group's accounting policy for share-based payments, where share options to employees are measured at fair value at the date of grant and recognised as expense over the vesting period. Previously, share options to employees were not charged to the profit and loss account.

This change in accounting policy has been accounted for retrospectively and resulted in the following:

- a. There was no impact on the total equity of the Group and of the Company as at January 1, 2005 and January 1, 2004. However, Accumulated Profits of the Group and of the Company as at January 1, 2004 were decreased by \$0.7 million and \$0.1 million respectively; and likewise, the Other Reserves of the Group and of the Company were increased by the same amount; and
- b. Net profit of the Group and of the Company for 2004 decreased by \$3.8 million and \$0.5 million respectively.

FRS 21(revised) The Effects of Changes in Foreign Exchange Rates

Under FRS 21(revised) The Effects of Changes in Foreign Exchange Rates, exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation, where that monetary item is neither denominated in the functional currency of the parent nor the foreign operation, are to be recognised in the profit and loss account, instead of the Currency Translation Reserve, as previously allowed.

In January 2006, CCDG issued FRS 21 Amendment Regulations 2006 ("FRS 21 Amendment 2006"), which is effective for financial periods beginning January 1, 2006, and early adoption is encouraged. FRS 21 Amendment 2006 now allows the exchange differences arising from a monetary item that forms part of the reporting entity's net investment in a foreign operation to be recognised in equity in the consolidated financial statements even if the functional currency of the loan is not denominated in either the functional currency of the parent or the borrowing foreign operation. The Group has early adopted FRS 21 Amendment 2006 and accordingly, all exchange differences arising from quasi equity loans are recognised in equity in the consolidated financial statements.

The adoption of revised FRS 21 and FRS 21 Amendment 2006 resulted in the following:

- a. Accumulated Profits as at January 1, 2004 for the Group decreased by \$1.1 million; and Currency Translation Reserve increased by \$1.1 million; and
- b. Net profit for 2004 decreased by \$0.2 million.

34. Acquisitions and Disposals of Subsidiaries

During the financial year, there were the following acquisitions and disposals of subsidiaries:

	Date of acquisition	Effective equity interest acquired	Cash Consideration	Impact on Group's net profit
		%	\$'000	\$'000
a. Acquisitions by:				
Utilities				
NCIP SembCorp Water Co. Ltd	28/11/2005	70	7,914	-
Marine Engineering				
Chut Kee LLC and its subsidiaries	13/10/2005	52.76	9,324	268
Engineering & Construction				
ST Architects & Engineers Pte Ltd ("STAE")*	20/06/2005	51.35	257	514

* Previously an associate to the Group. Following the acquisition, STAE is now a wholly owned subsidiary of the Group.

The above acquisitions were accounted for using the purchase method.

The results of the above acquired subsidiaries as though the acquisition date was from January 1, 2005 will not materially affect the revenue and profit of the Group for the year ended December 31, 2005.

Notes to the Financial Statements

Year ended December 31, 2005

34. Acquisitions and Disposals of Subsidiaries (continued)

			Impact on	Impact on
	Date of	Effective equity	Group's 2005	Group's 2004
	disposal	interest disposed	net profit	net profit
		%	\$'000	\$'000
b. Disposals by:				
Utilities				
SembCorp Energy (Kwinana) Pte Ltd	18/03/2005	100	449	2,175

The effect of acquisitions and disposals of subsidiaries' net assets is set out in the consolidated statement of cash flows.

35. Related Party Transactions

Identity of related parties

For the purpose of these financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

In addition to the related party information disclosed elsewhere in the financial statements, the Group had the following significant transactions with related parties during the year on terms agreed between the parties as follows:

	Group	
	2005	2004
	\$'000	\$'000
Related Companies		
Sales	788,566	660,223
Purchases including rental	29,645	23,086
Management fees paid/payable	-	3,686
Associates and Joint Ventures		
Sales	15,645	17,752
Purchases including rental	352,571	190,998

Compensation of key management personnel

Directors of the Company, CEOs of our subsidiaries, namely SembCorp Marine Ltd, SembCorp Logistics Ltd, SembCorp Environmental Management Pte Ltd, SembCorp Engineers and Contractors Pte Ltd and Singapore Precision Industries Pte Ltd, the Executive Chairman of SembCorp Parks Holdings Ltd, and Group Chief Financial Officer are considered to be key management personnel in accordance with FRS 24 – Related Parties. These persons have the authority and responsibility for planning, directing and controlling the activities of the Group.

The key management personnel compensation are as follows:

	Group	
	2005	2004
	\$'000	\$'000
Directors' remuneration	6,320 [*]	2,885
Other key management personnel remuneration	6,580	6,780
	12,900	9,665
Fair value of Share-based compensation	2,231	640

Notes to the Financial Statements

Year ended December 31, 2005

35. Related Party Transactions *(continued)*

Compensation of key management personnel *(continued)*

@ The increase in directors' remuneration is mainly due to payout made to Mr Wong Kok Siew (deceased on February 16, 2005), a former key executive and executive director of the Board, in accordance with his terms and conditions of employment. This payout was approved by the Executive Resource & Compensation Committee.

Remuneration includes salary (which includes employer CPF, allowances, fees and other emoluments) and bonus (which includes AWS, discretionary bonus, performance targets bonus, performance shares and restricted share released during the year).

In addition to the above, the Company provides medical benefits to all employees, which includes key management personnel.

The Group adopts an incentive compensation plan, which ties to the creation of Economic Value Added ("EVA"), as well as to attainment of individual performance goals for its key executives. A "bonus bank" is used to hold incentive compensation credited in any year. Typically, one-third of the available balance is paid out in cash each year, with the balance being carried forward to the following year. Such carried forward balances of the bonus bank may either be reduced or increased in future, based on the yearly EVA performance of the Group and its subsidiaries.

Fair value of share-based compensation relates to share options and performance share granted during the year. The amount charged is determined in accordance with FRS 102 Share-based Payment.

Company

- a. The Company provided a corporate guarantee to a subsidiary, SembCorp Cogen Pte Ltd ("SembCogen") who on January 15, 1999, entered into a long-term contract ("End User Agreement") with a fellow subsidiary, SembCorp Gas Pte Ltd ("SembGas") to purchase natural gas over the period of 22 years.

Under the End User Guarantee Agreement ("EUGA"), the Company and one of its subsidiaries, SembCorp Utilities Pte Ltd issued corporate guarantee in favour of SembGas for 70% and 30% respectively of SembCogen's obligations under the End User Agreement ("EUA Guarantee").

- b. The Company has provided guarantees to banks to secure banking facilities provided to a wholly owned treasury vehicle of the Company, SembCorp Financial Services Pte Ltd, amounting to approximately \$1,064 million (2004: \$100 million). The Company has also provided guarantee to a bank to secure banking facilities provided to a former subsidiary amounting to approximately \$3 million (2004: \$4 million).
- c. The Company has provided a lease guarantee to the landlord of a subsidiary, amounting to approximately \$36 million (2004: \$41 million), representing the expected rental payment for the remaining 16 years (2004: 17 years) under the tenancy agreement.

36. Financial Instruments

a. Financial risk management objectives and policies

The Group is subject to market risks including changes in interest rate, foreign currency, and commodity prices as well as credit risk. The Group has written risk management policies, which set out the Group's expectations and objectives in the management of risks. Processes are put in place to monitor its risk management activities on a regular and timely basis.

The Group monitors and hedges, where appropriate, its exposure to fluctuations in interest rates, foreign currency and commodity prices. Exposures to foreign currency risks are also hedged naturally where possible.

b. Working Capital Management

The Group manages its working capital requirements with the view to minimise cost and maintain a healthy level of liquidity having regard to the operating environment and expected cash flow of the Group. Working capital requirements are within the credit facilities established and are adequate and available to the Group to meet its obligations.

Notes to the Financial Statements

Year ended December 31, 2005

36. Financial Instruments *(continued)*

c. Credit risks

The Group monitors its exposure to credit risks arising from sales to trade customers on an on-going basis where credit evaluations are done on customers that require credit.

The Group only deals with pre-approved non-trade customers and financial institutions with good credit rating and imposes a cap on the amount to be transacted with any of these counterparties so as to reduce its concentration risks. To minimise the Group's counterparty's risk, the Group enters derivatives only with creditworthy financial institutions.

At balance sheet date, there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset, including derivative financial instruments, in the balance sheets.

d. Commodity risks

The Group hedges against fluctuations in commodity prices which affect revenue and cost. Exposures are managed via swaps, options, contract for differences and forward contracts.

Contracts for differences are entered into with its counterparty at a strike price, with or without fixing the quantity upfront to hedge against adverse price movements on the sale of electricity. Naphtha swaps are entered into for fixed quantity to hedge revenue indexed to naphtha. Exposure to price fluctuations arising on the purchase of fuel is managed via fuel oil swaps where the price of fuel is indexed to a benchmark fuel price index, for example 180 CST fuel oil.

For precious metal commodities, like gold, hedges against fluctuations in metal price are by the use of forward contracts or options to purchase at an agreed price. The quantum of commitment is based on actual or forecasted requirements.

e. Interest rate risks

The Group's policy is to maintain an efficient and optimal interest cost structure using a mix of fixed and variable rate debts, and long and short-term borrowings. The Group enters into interest rate swaps to minimise its interest rate risk. In accordance with the Group's policy, the duration of such interest rate swaps do not exceed the tenor of the underlying debt.

f. Foreign currency risks

The Group operates globally and is exposed to foreign currency exchange rate movement primarily in US Dollars, Sterling Pounds, Euros, Australian Dollars, Chinese Renminbi on sales and purchases, assets and liabilities which arise from daily operations. Such risks are hedged either by forward foreign exchange contracts in respect of actual or forecasted currency exposures or hedged naturally by a matching sale, purchase or a matching asset, liability of the same currency and amount.

g. Effective interest rates and repricing analysis

In respect of interest-earning financial assets and interest-bearing financial liabilities, the following table indicates their effective interest rates at balance sheet date and the periods in which they are repriced.

	Note	Effective interest rate %	Total \$'000	Within 1 year \$'000	1 to 5 years \$'000	After 5 years \$'000

h. Sensitivity analysis

In managing its interest rate and currency risks, the Group aims to reduce the impact of short-term fluctuations on the Group's earnings. Over the longer term, however, any prolonged adverse changes in foreign exchange and interest rates would have an impact on consolidated earnings.

It is estimated that a one percentage point increase/decrease in interest rate would increase/decrease the Group's profit before tax by approximately \$4,541,000 (2004: \$8,133,000). In computing the effect of changes in interest rates, the effect of interest rate swaps has been considered. In addition, in 2004, the interim dividend payable as disclosed in note 27(a) has been considered.

Notes to the Financial Statements

Year ended December 31, 2005

36. Financial Instruments *(continued)*

i. Estimating fair values

Securities

Fair value is based on quoted market prices at the balance sheet date without any deduction for transaction costs.

Derivatives

Forward exchange contracts are either marked to market using listed market prices or by discounting the contractual forward price and deducting the current spot rate. For interest rate swaps, broker quotes are used. Those quotes are back tested using pricing models or discounted cash flow techniques.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate is a market related rate for a similar instrument at the balance sheet date. Where other pricing models are used, inputs are based on market related data at the balance sheet date.

Interest-bearing loans and borrowings

Fair value is calculated based on discounted expected future principal and interest cash flows.

Finance lease liabilities

The fair value of finance lease liabilities is estimated as the present value of future cash flows, discounted at market interest rates for homogeneous lease agreements. The estimated fair values reflect change in interest rates.

Other financial assets and liabilities

The notional amounts of financial assets and liabilities with a maturity of less than one year (including trade and other receivables, cash and cash equivalents, and trade and other payables) are assumed to approximate their fair values. All other financial assets and liabilities are discounted to determine their fair values.

i. Recognised financial instruments

The aggregate net fair values of financial assets and liabilities which do not approximate the carrying value in the balance sheet as at December 31 are represented in the following table:

	2005	2005	2004	2004
	Carrying	Fair	Carrying	Fair
	amount	value	amount	value
	\$'000	\$'000	\$'000	\$'000
Group				
Financial Assets				
Quoted equity shares	77,172	77,172	32,734	60,197
Financial Liabilities

Notes to the Financial Statements

Year ended December 31, 2005

36. Financial Instruments (continued)

i. Estimating fair values (continued)

ii. Unrecognised financial instruments

As discussed under Note 38(b), the fair value of the call and put option associated with the Kristiansand investment could not be reasonably ascertained.

iii. Notional Amount

The notional amount of financial instruments as at December 31, are:

	2005	2004
	Notional	Notional
	amount	amount
	\$'000	\$'000
Group		
Foreign exchange contracts		
– Bought contracts	1,074,924	164,910
– Sold contracts	510,115	298,691
Foreign exchange swap agreements	402,531	27,867
Interest rate swap agreements	698,845	450,063
Fuel oil swap agreements	168,434	37,882
Foreign currency options	–	8,253
	2,854,849	987,666

The notional quantity of power hedges with option to buyback at spot purchase price is 972,000 mwh (megawatts hours).

The maturity of the financial instruments are disclosed in Note 9 and Note 23.

37. Contingent Liabilities (Unsecured)

	Group	
	2005	2004
	\$'000	\$'000
Guarantees given to banks to secure banking facilities provided to:		
– Associates and joint ventures	69,640	13,695
– Others	164,241	8,290
Performance guarantees granted on behalf of associates and joint ventures	205,363	231,880

In addition, at December 31, 2005, the Group had the following significant contingent liability:

Solitaire

The provision for net exposure arising from legal claims as disclosed in Note 19 amounting to \$565 million (2004: \$565 million) relates to the provision for Solitaire arbitration.

In November 1993, Sembawang Corporation Limited (“Sembawang”) was awarded a \$230 million contract by Allseas, owners of the vessel Solitaire (“the Owners”) for the conversion of a bulk carrier into a dynamically positioned pipe lay vessel. The Owners terminated the contract on October 24, 1995 before works were fully completed.

In 2005, based on continuous evaluation of the Owner’s claims in the course of the Solitaire arbitration and on the advice of Sembawang’s London solicitors, the Board deems it adequate to maintain the current provisions.

The hearing on the Owner’s claims were completed in 2005. The Tribunal is expected to make an award on the Principal sums in 2006.

Notes to the Financial Statements

Year ended December 31, 2005

38. Commitments

	Group	
	2005	2004
	\$'000	\$'000
Commitments not provided for in the financial statements are as follows:		
Capital expenditure for:		
Commitments in respect of contracts placed	125,177	191,876
Amounts approved by directors but not contracted	171,184	24,650
Uncalled capital and commitments to subscribe for additional shares in investments	68,453	16,020
	364,815	232,546

At the balance sheet date, commitments in respect of payments for non-cancellable operating leases with a term of more than one year are as follows:

	Group		Company	
	2005	2004	2005	2004
	\$'000	\$'000	\$'000	\$'000
Lease payments due:				
Within 1 year	64,066	58,366	882	860
Between 1 and 5 years	152,439	171,504	246	235
After 5 years	113,443	156,026	-	-
	329,948	385,896	1,128	1,095

- a. A subsidiary, SembCorp Gas Pte Ltd ("SembGas") entered into a long-term Gas Sales Agreement ("GSA") with Perusahaan Pertambangan Minyak Dan Gas Bumi Negara ("Pertamina") to purchase a total estimate of 2.6 TCF (Trillion Cubic Feet) of natural gas over a period of 22 years from the commencement of the contract.

SembGas has also entered into End User Agreements with Tuas Power Ltd, SembCogen, Esso Singapore Pte Ltd, Ellba Eastern Pte Ltd and Shell Eastern Petroleum Pte Ltd to on-sell a total of 340 mmscfd (million standard cubic feet per day). The End User Agreements contain provisions, which specifically deal with, inter alia, SembGas's liability for shortfalls in deliveries of gas and relief from such liability in certain circumstances.

- b. A subsidiary, Sembawang Shipyard (S) Pte Ltd ("SSSPL") granted an option to the minority shareholders (the "Minority Shareholder") of Kristiansand Drilling Pte Ltd ("Kristiansand") (the "Call Option") to acquire all (but not some only) the shares of Kristiansand (the "Call Option Shares") held by SSSPL.

The Call Option shall be exercisable at any time during the period commencing from the effective date as described in Shareholders' Agreement to the date falling 18 months after date of delivery of a jack-up rig which is owned by Kristiansand.

The exercise price of the Call Option shall be a sum equivalent to SSSPL's actual paid in capital to Kristiansand plus financing costs of LIBOR + 1.5% per annum for the period from Effective Date to date of transfer of the Call Option Shares plus premium of 0% to 12% depending on the time the Minority Shareholder exercises the Call Option.

The Minority Shareholder of Kristiansand has also been granted an option (the "Put Option") to require SSSPL to acquire the Shares of Kristiansand (the "Put Option Shares") held by them.

The Put Option shall be exercisable at any time during the period commencing from the Effective Date as described in Shareholders' Agreement to the date falling 9 months after the date of delivery of the rig.

The exercise price for Put Option Shares shall be a sum equivalent to 90% of the Minority Shareholders' actual paid in capital on the date of transfer of Put Option Shares.

The future price of the rig is dependent on oil prices, demand and supply of rigs, rig utilisation and charter rates, which could not be reasonably estimated. As such, the fair value of Kristiansand could also not be reasonably determined. Accordingly, the fair value of the call and put option associated with the Kristiansand investment could not be reasonably ascertained.

Notes to the Financial Statements

Year ended December 31, 2005

39. Segment Reporting

Segment information is presented in respect of the Group's business and geographical segments. The primary format, business segments, is based on the Group's management and internal reporting structure.

Inter-segment pricing is determined on mutually agreed terms.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

i. Business Segments

The Group comprises the following main business segments:

Utilities segment offer a range of fully integrated industrial site service, including power, gas, centralised utilities to clusters of chemical multinational corporations in Singapore and United Kingdom. It also invests in, manages and operates cogeneration plants in Singapore and in the region. It is also involved in engineering, construction and fabrication of offshore platforms, modules and floating production systems for oil and gas companies.

Marine Engineering segment focuses on repair, building and conversion of ships, rig construction and offshore engineering.

Logistics segment provides one-stop logistics management services, parts and components management, automated warehouse operations, preservation and packaging technologies and hazardous goods management.

Environmental Engineering segment provides integrated waste management services in the Asia Pacific region.

Engineering and Construction segment is engaged in turnkey construction, design consultancy, infrastructure development and project management.

Others segment comprises businesses relating to internet services provider, minting, hotels, properties, resorts and industrial parks.

ii. Geographical Segments

The Group operates in three principal geographical areas, Singapore, Europe and Rest of Asia. In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of customers. Segment assets are based on the geographical location of the assets.

40. Subsequent Events

- a. On January 12, 2006, a subsidiary, SembCorp Marine Ltd announced that the company has signed an agreement to increase the registered capital of its associated company, Cosco Shipyard Group Co. Ltd (CSG) by RMB 750 million or approximately S\$45.4 million. This capital injection into the registered capital of CSG shall be made in three instalments over a two-year period starting 2006 to 2007. The increase is subject to the People's Republic of China's regulatory approval.

Notes to the Financial Statements

Year ended December 31, 2005

40. Subsequent Events *(continued)*

- b. On January 26, 2006, the Company announced that a subsidiary, SembCorp Utilities Pte Ltd (SembUtilities) has been short listed and ranked first of two short listed bidders for the privatization of an independent Water and Power Plant in Fujairah, UAE by the Abu Dhabi Water and Electricity Authority (ADWEA). ADWEA will own 60% of the project and if successful in its bid, SembUtilities will own 40% of the project and will be responsible for plant operation and maintenance as well as management of the project company. Final decision on the bid outcome is expected to be taken by ADWEA's executive council in the first quarter of 2006.

41. Significant Accounting Estimates and Judgment

Estimates, assumptions concerning the future and judgments are made in the preparation of the financial statements. They affect the application of the Group's accounting policies, reported amounts of assets, liabilities, income and expenses, and disclosure made. They are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances.

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

a. Impairment of goodwill

The Group determined whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. Information about the assumptions and their risk factors relating to goodwill impairment are disclosed in Note 12.

b. Income taxes

The Group is subject to income taxes in numerous jurisdictions. Significant judgment is involved in determining the group-wide provision for income taxes. There are certain transactions and computation for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income taxes and deferred tax provisions in the period in which such determination is made.

c. Pension assumptions

The Group has decided on certain principal actuarial assumptions, as detailed in Note 20, in estimating its pension liability as at the balance sheet date. If there were adverse changes to these actuarial assumptions, then the Group's unrecognised actuarial losses would increase with the risk that they would fall outside the corridor and would need to be recognised in the profit and loss account.

d. Net exposure arising from legal claims

The Group has made a provision for its exposure to the ongoing litigation in relation to Solitaire arbitration. The provision is determined based on a continuous evaluation of the Owner's claims and on the advice of London's solicitors. The Board deems the provision to be adequate. The details of the provision and litigation are as disclosed in Note 19 and 37 to the financial statements.

Critical accounting judgments in applying the Group accounting policies

Revenue recognition policy

The Group recognised revenue on construction contract, ship and rig repair, building and conversion based on the percentage of completion method in proportion to the stage of completion. The percentage of completion is assessed by reference to surveys of work performed or performed or by reference to the percentage of costs incurred to-date to the estimated total costs for each contract, with due consideration made to include only those costs that reflect works performed. Significant judgment is required in determining the appropriate stage of completion and estimating a reasonable contribution margin for revenue and costs recognition.

42. Comparative Information

Certain comparatives in the financial statements have been changed from the previous year due to the changes in accounting policies as described in Note 33 and to be consistent with current year presentation.

	<u>10,838</u>
Total interested person transactions	<u>1,007,618</u>

Notes:

- ¹ This relates mainly to the sale of gas by SembCorp Gas Pte Ltd to Tuas Power Ltd and PowerSeraya Limited for the generation of electricity.
- ² This relates mainly to the purchase of gas by SembCorp Cogen Pte Ltd from SembCorp Gas Pte Ltd for the generation of electricity.

There are no transactions which are not conducted under the shareholders' mandate pursuant to Rule 920 of the SGX Listing Manual during the period January 1, 2005 to December 31, 2005.

EVA Statement

Year ended December 31, 2005

	Note	2005 \$'000	Restated 2004 \$'000
Net Operating Profit Before Taxation		429,345	854,570
Adjust for:			
Share of associates and joint ventures profits		100,942	155,898
Interest expense	1	68,626	90,663
Others	2	28,059	(373,184)
Adjusted Profit before Interest and Tax		626,972	727,947
Cash Operating Taxes	3	(82,451)	(82,503)
Net Operating Profit after Tax (NOPAT)		544,521	645,444
Average Capital Employed	4	5,275,539	5,471,671
Weighted Average Cost of Capital	5	5.6%	6.2%
Capital Charge		293,511	339,756
Economic Value Added (EVA)		251,010	305,688
Minority share of EVA		(60,805)	(270,618)
EVA attributable to shareholders		190,205	35,070
Less: Unusual items (UI) Gains	6	74,379	379,475
Provision for net exposure arising from legal claim (Provision)		-	(415,000)
EVA attributable to shareholders (exclude UI and Provision)		115,826	70,595

Notes:

- Interest expense includes imputed interest on present value of operating leases and capitalised interest charged to profit and loss upon disposal of the assets.
- Other adjustments include recovery of investment costs, timing difference of allowances made for/(writeback) of doubtful debts, inventory obsolescence and goodwill written off / amortised / impaired and construction-in-progress.
- The reported current tax is adjusted for the statutory tax impact of interest expense.
- Monthly average total assets less non interest-bearing liabilities plus timing provision, goodwill written off / amortised / impaired and present value of operating leases.

	2005 \$'000	2004 \$'000
Major Capital Components:		
Fixed assets	2,767,608	2,811,353
Investments	1,294,420	1,833,558
Other long-term assets	166,709	301,600
Net working capital and long-term liabilities	1,046,802	525,160
Average Capital Employed	5,275,539	5,471,671

- The Weighted Average Cost of Capital is calculated in accordance with SembCorp Industries Ltd Group EVA Policy as follows:
 - Cost of Equity using Capital Asset Pricing Model with market risk premium at 6.0% (2004: 6.0%);
 - Risk-free rate of 2.62% (2004: 3.78%) based on yield-to-maturity of Singapore Government 10 years Bonds;
 - Ungeared beta ranging from 0.5 to 1.0 (2004: 0.5 to 1.0) based on SembCorp Industries risk categorisation; and
 - Cost of Debt rate at 3.03% (2004: 3.70%) using 5-year Singapore Dollar Swap Offered Rate plus 75 basis points (2004: 5-year Singapore Dollar Swap Offered Rate plus 75 basis points).
- Unusual items (UI) refer to divestment of subsidiaries, associates, joint ventures, long-term investments and disposal of major fixed assets.
